

Financial Implementation Immersion Workshop

OVERVIEW

This course is a 5-day interactive, hands-on workshop designed to provide an in-depth understanding of the steps required to set up a Company from scratch including the financial applications within Nextworld.

Each participant will:

- Set up a company structure
- Configure financial modules
- Execute transactions and run reports
- Import & Export master & transactional data
- Customize solutions including workflow, approvals & application settings

This workshop will be conducted by senior level training and implementation team members.

WHO SHOULD ATTEND?

This workshop is designed for experienced and very strong emerging functional consultants who will be implementing Nextworld financial products.

Attendees should have experience in:

- Prior ERP implementations
- Strong working knowledge of accounting practices
- Understanding of business process flows

Note: This course requires approval from the Nextworld Team
