AL JALLAF

الجلّاف

“Their competency, know how, deliverables and their aim to ACHIEVE THE BEST interests of their clients, has been a virtue which we highly appreciate.”

GLOBAL STANDARDS. LOCAL EXPERTISE.

For over 20 years, we have provided strategic and commercially grounded legal advice and representation in the UAE to clients from around the globe. We are proud of the work we have done and the boundaries we have broken; but, despite our successes, we don't have any plans to rest on our laurels.

The UAE legal market is still young. To develop further, it requires pioneers who are well placed to innovate and BRIDGE THE GAP between UAE legal services and standards required by the international business community.

Our novel business model reflects this aim, and, to ensure that it is met, our standards and internal procedures have been developed to converge and integrate with those of international counsel. More importantly, our business model permits our team to seamlessly (and virtually) sit within a team managed by your own preferred international legal counsel or to internally assemble a team around the needs of a case.

Drawing on our expertise across a range of sectors, our select team of internationally qualified lawyers shares the ambition to make Al Jallaf the UAE's premier commercial law boutique, and the leading specialist aviation law firm in the Middle East.

Drawing on deep knowledge of UAE and international litigation strategy, we frequently act as UAE litigation partners for global law firms, multinationals, and regional leaders. Our work includes cross-border strategy, major recovery projects, fraud claims, and medium to large-scale litigations.
