

RiverNorth Active Income ETF

Statement Pursuant to Section 19(a) of the Investment Company Act of 1940

On May 29, 2026, the RiverNorth Active Income ETF (the "Fund") paid a distribution of \$0.0685 per share to shareholders of record at the close of business on May 28, 2026. Under U.S. generally accepted accounting principles (GAAP), the Fund estimates that 52.36% of the distribution is attributable to current year net investment income and 47.64% of the distribution is attributable to long-term capital gain.

The characterization of Fund distributions for federal income tax purposes is different from the GAAP characterization presented above. The determination of what portion of each year's distributions constitutes ordinary income, qualifying dividend income, short or long-term capital gains or return of capital is reported to shareholders on Form 1099-DIV, which is mailed every year in late January of the following year.
