DESIGN IDEAS

Explore cladding, doors, finishes and optional features to create a yurt tailored to your vision and intended use.

CASE STUDIES

Take inspiration from our previous projects and see how different designs, uses and budgets come together.

01

PRODUCT

OVERVIEW

This brochure details Roundwood Yurts, covering construction, materials, insulation, foundations, and customisation options. It gives you the information you need to understand the structure, performance, and possibilities available.

HOW TO BEGIN

Every Roundwood Yurt starts with a conversation. We want to understand how you plan to use the space before working out what setup will work best for you. We have standard designs for simple builds, but beyond that, there's plenty of flexibility. Whether you're looking for a fully off-grid setup or somewhere to escape and relax, we can build it around what you need.

Once we've agreed on the design, your yurt is precision-crafted and installed by our team, then backed by our workmanship warranty for peace of mind.

YOUR BUILD

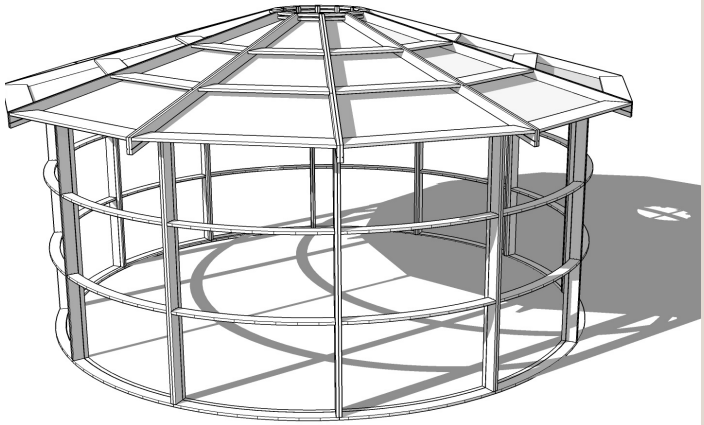

Every Roundwood Yurt is built to order and tailored to your needs. From the design and materials to the practical details, we'll work with you to create a space that suits how you want to use it.

The result is a yurt that feels like your own, built properly and made to last.

BROCHURE

THE DESIGN

Our yurts are made from identical panels for the walls and roof. Each uses 18mm birch plywood, creating a strong, durable frame designed to handle the British weather.

Standard Structural Design

Design Team in Action

CNC
Machined
Precision.

Fast
Installation.

Built For Year
Round Use.

03

THE BUILD

BASE

Heavy-duty ground screws are drilled into the ground, creating a solid foundation with minimal disturbance. A timber frame is then built on top to create the platform for the next stage.

FLOOR & WALLS

An engineered timber floor is laid, followed by the wall panels, which slot together around the edge of the yurt. Once in place, the structure really starts to take shape.

Engineered for strength. Designed for comfort.

Our precision-cut timber frame, 12-panel walls and roof come together to create a strong, comfortable structure. Every element is designed to last, while giving you the flexibility to create a space that works for you.

ROOF

The roof panels are carefully fitted together to create the perfect round finish. Precision is key here, ensuring everything lines up neatly and is ready for the roof light.

FINAL TOUCHES

The yurt is wrapped in a weatherproof, breathable membrane before the roof is sealed with a 25-year guaranteed coating. Finally, the external cladding is fitted to complete the build.

04 PRICING

Find our starting prices below. For a more detailed project quote, get in touch with our team, or take a look at our case studies in section 06 for examples of project costs.

Our pricing is based on yurt diameter, with all prices shown exclusive of VAT.

4m from £9,995
5m from £14,500
6m from £18,500
7m from £27,000
8m from £36,000
9m from £42,000
10m from £48,000

All prices are estimates based on current market rates. Any additions or changes will be reflected in your final quote to keep costs accurate and up to date.

01

CHOOSE THE RIGHT SIZE

Our range starts at 4m and goes up to 10m in diameter. Ask our team for guidance on what size might work best for you.

02

DECIDE ON FEATURES

Choose from options such as wood burners, off-grid systems, windows, bathrooms, kitchenettes and more.

03

FINISH & SPEC

Choose your wood type, cladding, paintwork, roof finish and other details to make the yurt your own.

DESIGN IDEAS 05

Take a look at some of the ways your yurt could be designed.

Every Roundwood Yurt can be tailored to suit how you want to use it. From cladding and doors to wood burners, lighting and green roofs, there are plenty of ways to make the space your own.

We'll guide you through the options and help you create something that looks great, works well and is built to last.

QUIET RETREAT

A space to escape, slow down and switch off. Create a calm, comfortable space that feels separate from the everyday.

OFF-GRID LIVING

Create a fully off-grid space designed for comfortable year-round living, whether for yourself or as a unique rental.

ACTIVE STUDIO

A dedicated space for yoga, Pilates, dance, fitness or simply getting away from the house.

OTHER

The ideas above are just the beginning. If you have something different in mind, we can develop a unique design.

06.1 CASE STUDIES

4m, Year-Round Chill Space, Newcastle

Escape the chaos of everyday life.

Project Price: £13,495 + VAT

The brief was simple: create an escape. A space to chat, read or enjoy a drink with friends, giving the family somewhere to switch off and spend time together.

INTERIOR

Simple ply cladding and an engineered oak floor keep the interior feeling natural, warm and understated.

A space for family time and getting back to nature.

With a log burner, some big old comfy armchairs and a hammock, this family created somewhere to escape the TV and enjoy quiet Friday evenings together. Just chatting, reading and playing board games.

PROJECT BREAKDOWN

4m Yurt Frame £9,995
Log Burner £1,750
Insulation £500
Base £500
Install £750

TOTAL £13,495 + VAT

06.2 CASE STUDIES

6m, Outdoor Classroom Escape, Cornwall

A space to explore, learn and connect with nature.

Project Price: £25,450 + VAT

For young children, having somewhere to explore the woods before retreating to a warm, safe space when the weather turns gives them the best of both worlds. No screens, no distractions – just plenty of space to play, learn and connect with

INTERIOR

Designed with children in mind, the open interior gives them plenty of room to move, play and learn. Simple finishes and rounded edges make it a welcoming space for groups of all ages.

A space immersed in nature, whatever the weather.

Woodland walks don't always go to plan. The yurt gives the children somewhere warm and comfortable to retreat to, whether it's for hot chocolate in winter or a break from the summer sun.

PROJECT BREAKDOWN

6m Yurt £18,500
Insulation £750
Double-Glazed Roof Dome £700
Ground Screws & Base £3500
Delivery & Install £2,000

TOTAL £25,450 + VAT

06.3

CASE STUDIES

6m, Sound Healing & Wellness Space, Surrey

A dedicated space for calm, focus and connection.

Project Price: £27,100 + VAT

The client wanted a dedicated space for sound healing and wellness sessions – somewhere separate from the main house and designed to feel calm and peaceful.

INTERIOR

A simple natural finish keeps the interior warm and understated. Soft lighting, timber walls and carefully considered details create a comfortable space for sessions and relaxation.

A space to slow down and switch off.

Step inside and the outside world feels a little further away. With soundproofing and a calm, natural interior, this yurt was designed to create the right environment for sound healing and quiet reflection.

PROJECT BREAKDOWN

6m Yurt £18,500
Insulation £750
Double-Glazed Roof Dome £700
Ground Screws & Base £3500
Engineered Oak Floor £1650
Delivery & Install £2,000

TOTAL £27,100 + VAT
