

Describe the role of global forums in achieving global sustainability.

3 marks

Possible Plan

Introduction

- Highlight the significance of global forums, such as the United Nations and the World Economic Forum, in fostering international cooperation for sustainability.

Collaboration

- Explain how these forums facilitate dialogue and collaboration among nations, enabling the sharing of best practices and resources.

Global Standards

- Discuss the role of global forums in setting international standards and goals, like the Sustainable Development Goals (SDGs), to guide collective efforts toward sustainability.

Global Governance: The system of international rules, institutions, and practices aimed at managing global issues collectively.

Multilateralism: An approach where multiple countries work together on a given issue, emphasising cooperation and shared decision-making.

Sustainability: The practice of meeting present needs without compromising the ability of future generations to meet theirs.

Sustainable Development Goals (SDGs): A set of 17 interlinked global goals established by the United Nations to promote prosperity while protecting the planet.
