IBEW LOCAL 11 - SINCE 1891

Inside Wireman Binding Arbitration / Strike Authorization Results

Brothers and Sisters,

Thank you to everyone who participated in the recent vote. The membership has approved a strike authorization.

The final vote count was 2,178 (76.02%) in favor of requesting an authorization for a strike sanction and 687 (23.98%) in favor of binding arbitration.

The next step is for IBEW Local 11 to request a strike sanction from the International Office. The Local will submit all required documentation to the International Office by the end of this week. A strike authorization does **not** mean a strike has been called.

Once the documentation has been received, the International Office will review the request. This process may take up to one week before a determination is made. Until then, we ask that you remain united, stay informed and continue performing your work professionally.

A strike sanction is not a symbolic gesture. It is a formal declaration that the membership is prepared to support its bargaining position with collective action, if necessary. It also carries responsibilities, risks, and sacrifices for every member and every family.

Financially prepare yourselves, as this process may take a while. All travel letters have been suspended and any members currently working out of our jurisdiction, prepare to come home when we start this strike.

It is important to note that a strike is not automatic or inevitable. Even after a strike sanction is granted, negotiations can and will continue. Our goal remains the same: to reach a fair agreement at the bargaining table.

We will continue to keep the membership informed as updates become available.

Thank you for your continued trust, patience, solidarity, and participation throughout this process.

In solidarity,

Robert Corona
IBEW Local 11 Business Manager
