BIO

Deyder Cintron fuses cinematic scores (Zimmer/Final Fantasy-inspired) with radio-ready pop/rock/Latin hits, delivering 96k/24-bit stems, Atmos-ready mixes, and one-stop clearances.

With 20+ years in the studio (Apogee/U47, Neve/API/SSL, 12TB sound library), I've powered 2B+ streams, including Tini Stoessel's 500M+ debut album (Hollywood Records), featured vocals in Sing 2 (Universal, \$3K+ upfront/\$2K+/qtr residuals), Disney Parks ride/show compositions/vocals, and Grammy-nominated vocal edits for Gaga/Britney (Rock of Ages, Cheek to Cheek).

Collaborating with Pam Sheyne (Genie in a Bottle) for sync-optimized fire. Genres: Nostalgic anime covers, anthemic rock, Latin-pop, cinematic action. All tracks cleared (EasySong mechanicals), non-exclusive, \$5K–\$50K fees.
