

PALISADE FENCING

IN 2019 CLA FENCING SYSTEMS MADE A MAJOR INVESTMENT AND PURCHASED A PALISADE ROLLING MILL FOR OUR WEST MIDLANDS MANUFACTURING FACILITY. AS A MANUFACTURER, WE ENSURE THAT ONLY TOP QUALITY MATERIALS ARE USED IN THE PRODUCTION OF OUR PALISADE PRODUCTS. CLA PRODUCE THE MODERN “W “PROFILE PALE. THE RE-ENFORCING SHAPE OF THE “W “PROFILE PRODUCES A STRONG AND RESILIENT PALE.

CLA Palisade Fencing is predominately used to secure large areas where a permanent cost effective but formidable long-lasting security deterrent is required.

CLA Palisade fencing is an easy to install system which comes in kit form and is suited to both hard and soft ground and has the ability to follow contours of the ground.

CLA Palisade Fencing has many benefits once installed to protect your property. The pointed pale top act as a climbing deterrent and the style and shape of the pales gives little grip and deters climbing. With no compromise on quality materials and protective treatments our range of palisade fencing is low maintenance yet strong, sturdy and durable.

STANDARD AND CUSTOM FINISHES

HEIGHT	POST SIZE	POST LENGTH	RAIL SIZE	POST CENTRES	PALE THICKNESS	PALE CENTRES
1200mm	100 x 55 IPE	1725mm	45 x 45 RSA	2750mm	2mm	153mm
1500mm	100 x 55 IPE	2025mm	45 x 45 RSA	2750mm	2mm	153mm
1800mm	100 x 55 IPE	1325mm	45 x 45 RSA	2750mm	2mm	153mm
2000mm	100 x 55 IPE	2725mm	45 x 45 RSA	2750mm	2mm	153mm
2100mm	100 x 55 IPE	2725mm	45 x 45 RSA	2750mm	2mm	153mm
2400mm	100 x 55 IPE	3125mm	45 x 45 RSA	2750mm	2mm	153mm
3000mm	100 x 55 IPE	3925mm	50 x 50 RSA	2750mm	2mm	153mm
