

SITE GATES

PROTECT YOUR SITE WITH OUR RELIABLE AND ROBUST TEMPORARY SITE GATES. DESIGNED TO PROVIDE A HIGH LEVEL OF SECURITY WHILE REMAINING QUICK AND EASY TO INSTALL, THESE GATES ARE CONSTRUCTED FROM HIGH-QUALITY HOLLOW SECTION STEEL AND BUILT TO WITHSTAND THE DEMANDS OF TEMPORARY USE. THE HEAVY-GAUGE SINGLE-WIRE CLAD INFILL ADDS STRENGTH AND IMPROVES OVERALL SECURITY.

Our temporary gates are supplied with a durable polyester powder-coated finish, available in RAL 9005 Black. All double-leaf gates are provided with standalone 100 x 100 SHS dig-in posts, adjustable hinge fittings and a secure, padlockable slide latch with drop bolts for convenience and reliability.

Installation is quick and hassle-free, allowing your site to be secured without delay. We understand that every site has its own requirements, so we also offer a full bespoke manufacturing service. If you require gates made to specific dimensions or tailored to particular specifications, our technical sales team is on hand to assist.

Choose CLA Security Fencing Systems for temporary site gates that are strong, easy to install and built to last. Protect your site with confidence and achieve peace of mind with dependable, high-quality security solutions.
