

# SINGLE MESH GATE

Single Mesh Gate provides secure pedestrian access for commercial, industrial, educational, and public sector sites. Designed to complement twin wire mesh fencing systems, it maintains a durable perimeter with a clean, professional look.

At CLA Security Fencing Systems, our Single Mesh Gate is available in multiple heights and colour finishes for long-lasting outdoor performance.

## WHY CHOOSE SINGLE MESH GATE?

### STRONG & DURABLE

Robust steel construction built to provide reliable security and withstand daily use.

### SECURE ACCESS

Padlockable slide latch for dependable security and controlled pedestrian access.

### BUILT TO LAST

Hot-dip galvanised and powder-coated finish for excellent corrosion resistance and long-term performance.

### TAMPER RESISTANT

Supplied with tamper-proof fixings and heavy-duty hinges for added security.

### LOW MAINTENANCE

Engineered for minimal maintenance and maximum reliability in all weather conditions.
