

DOUBLE MESH GATES

Double Mesh Gates provide secure vehicle and service access for commercial, industrial, educational, and public sector sites. Designed to complement twin wire mesh fencing systems, they maintain a durable perimeter with a clean, professional look.

At CLA Security Fencing Systems, our Double Mesh Gates are available in multiple heights, widths, and colour finishes for long-lasting outdoor performance.

WHY CHOOSE DOUBLE MESH GATES?

STRONG & DURABLE

Double leaf gates with heavy duty twin wire infill and robust steel frame for superior strength and reliability.

SECURE ACCESS

Padlockable slide latch for dependable security and controlled vehicle or service access.

BUILT TO LAST

Galvanised and powder-coated finish for excellent corrosion resistance and long-term performance.

ADDED SECURITY

Includes drop bolts to secure both gate leaves in the closed position.

LOW MAINTENANCE

Engineered for minimal maintenance and maximum reliability in all weather conditions.
