

PLASTIC POST CAPS

Plastic Post Caps provide a simple, effective finish for mesh fencing and railing posts. Designed as a neat, secure top cover, they improve post appearance with a clean, professional look.

At CLA Security Fencing Systems, our Plastic Post Caps are available in multiple sizes for common SHS post profiles, repairs, replacements, and new installations.

PROTECT & FINISH MESH FENCING POSTS

Plastic Post Caps are designed to provide a neat, professional finish to mesh fencing installations while helping protect fence posts from water ingress, dirt and everyday weather exposure. Suitable for a wide range of mesh fencing systems, these durable post caps fit securely onto compatible fence posts and help extend the life of perimeter fencing components.

Ideal for new installations, replacement parts and fencing maintenance projects, plastic post caps are commonly used with V mesh, 656 twin wire, 868 twin wire and other mesh fencing systems. Their simple design makes installation quick while maintaining a clean and consistent appearance across the fence line.

DELIVERY TIME:

5-7 BUSINESS DAYS

Please note: Red, blue, and selected custom colours may require a longer delivery time.

WHY CHOOSE PLASTIC POST CAPS?

- ✓ Plastic post caps are a popular choice where a neat finish, simple fitting, and post protection are important.
- ✓ Designed to suit compatible SHS post sizes.
- ✓ Suitable for mesh fencing, railing, repairs, replacements, and new installations.
- ✓ Provides a clean and professional post finish.
