

MESH CLIP

Mesh Clips are used to securely attach mesh fencing panels to compatible fence posts as part of a complete perimeter fencing system. Suitable for V mesh, 656 twin wire, 868 twin wire and other mesh fencing installations, these clips help create a strong and reliable connection between the panel and post.

Ideal for new fencing projects, repairs, extensions and replacement parts, mesh clips are an essential accessory for maintaining secure and professional fence lines.

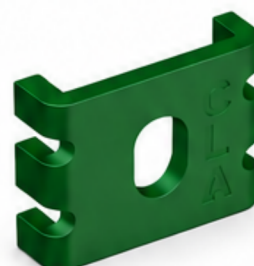

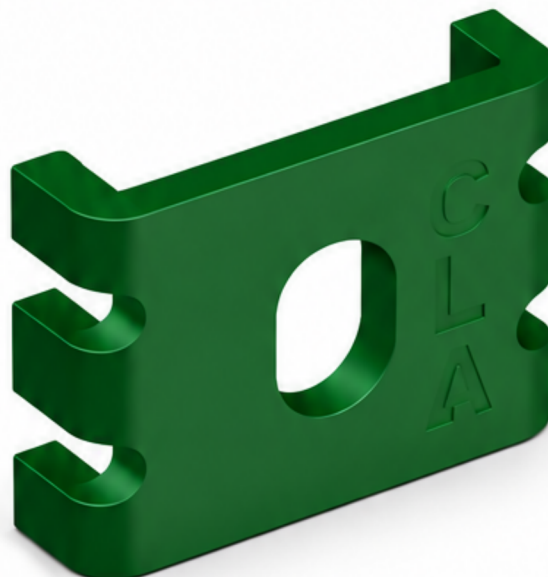

CLA-MSH-CLIP

DELIVERY TIME:

5-7 BUSINESS DAYS
