

Locinox Gate Lock With Push Pad For 30-50mm Sections Deadlock (Silver)

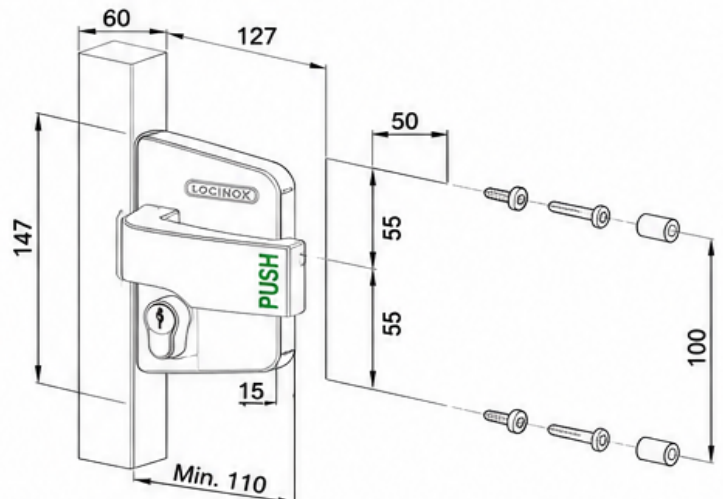

CLA-LCK-LOC-PUSHPAD-DL-30-50-SIL

Locinox Gate Lock With Push Pad is a heavy-duty mechanical gate lock designed for secure access control and emergency exit functionality on metal gates. Ideal for commercial premises, schools, industrial sites, public buildings, and security fencing systems, this lock combines external keyed access with internal push pad exit operation. At CLA Security Fencing Systems, our Locinox Push Pad Gate Lock is designed to suit 30–50mm gate sections with a durable silver finish.

KEY FEATURES

- Heavy-duty surface mounted gate lock with push pad
- Push pad allows easy exit by simple push (operates daybolt)
- External keyed access for secure locking
- Adjustable continuous bolts for perfect closing alignment
- Stainless steel mechanism for superior corrosion resistance
- Suitable for metal gates 30–50mm thick
- Quick and easy installation with Drill-Fix jig
- Silver powder coated aluminium housing

IDEAL FOR

PUSH PAD (3006PUSH) INFORMATION

Push handle set for easy opening of the gate by a simple push. The 3006PUSH replaces the standard handle, can be quickly installed on new or existing locks and operates the daybolt. One side blinded.
