

A diagram of a cable assembly. A horizontal cable is shown with a blue dashed line indicating its length. At each end, there is a connector. Above the cable, there are red arrows pointing to specific points. The first arrow on the left is labeled '93'. The next eight arrows are labeled '108'. The last arrow on the right is labeled '93'. This indicates that the cable has a total length of 108 inches, with 93-inch segments at each end and 108-inch segments in between.
