

A Note to You, Supermom

This year, we are making Pesach through so much. As mamas living in Eretz Yisrael, we are navigating the incredible privilege of being here, while carrying the weight of everything happening around us. The days feel different right now. Heavier in some moments, sweeter and more meaningful in others.

But here is what we know: you show up, every single day. You are feeding your family, holding down your home, wiping away the worry, and somehow you are also kashering the kitchen and getting ready for Yom Tov. That is not a small thing. That is actually extraordinary.

This Pesach pack was made for you. To take a little of the chaos out of the season, to help you feel organized and on top of things, and to remind you that you are never doing this alone. We are a community, and we are all in this together.

So take a breath, grab a coffee, and let's do this. You've got this.

Chag Kasher V'Sameach!
