DEFENDING THE FUTURE.

FROST UNMANNED

Introduction of
FROST UNMANNED

Founded in 2018 and born from defense needs, Frost Unmanned is dedicated to becoming a pioneering leader in the unmanned technology industry, focusing on leveraging innovative solutions to address critical defense and security challenges.

Stenungsund
Sweden

Swedish ownership, technology, and production.

Customer-focused and solution-oriented.

PRODUCT OFFERING

FROST
UNMANNED

TRACER
FROST
UNMANNED

TRACER 160

ISR

- Signal intelligence **SIGINT**
- Communication intelligence **COMINT**
- Electronic intelligence **ELINT**

DESIGN SOLUTIONS

- Low detection profile
- High-speed
- Mid-range strike

STRIKE

- 2 kg payload – eliminating light armored threats

FROST UNMANNED

TRACER 160

SPEED (MAX)

159 knots (295 km / h)

SPEED (CRUISE)

82 knots (151 km / h)

RANGE

174 nm (200 km) at cruise

STRIKE

- 2 kg payload – eliminating light armored threats

ISR

- Signal intelligence **SIGINT**
- Communication intelligence **COMINT**
- Electronic intelligence **ELINT**

DESIGN SOLUTIONS

- Low detection profile
- High-speed
- Mid-range strike

FROST UNMANNED

ARROW

FROST
UNMANNED

ARROW 600

ISR

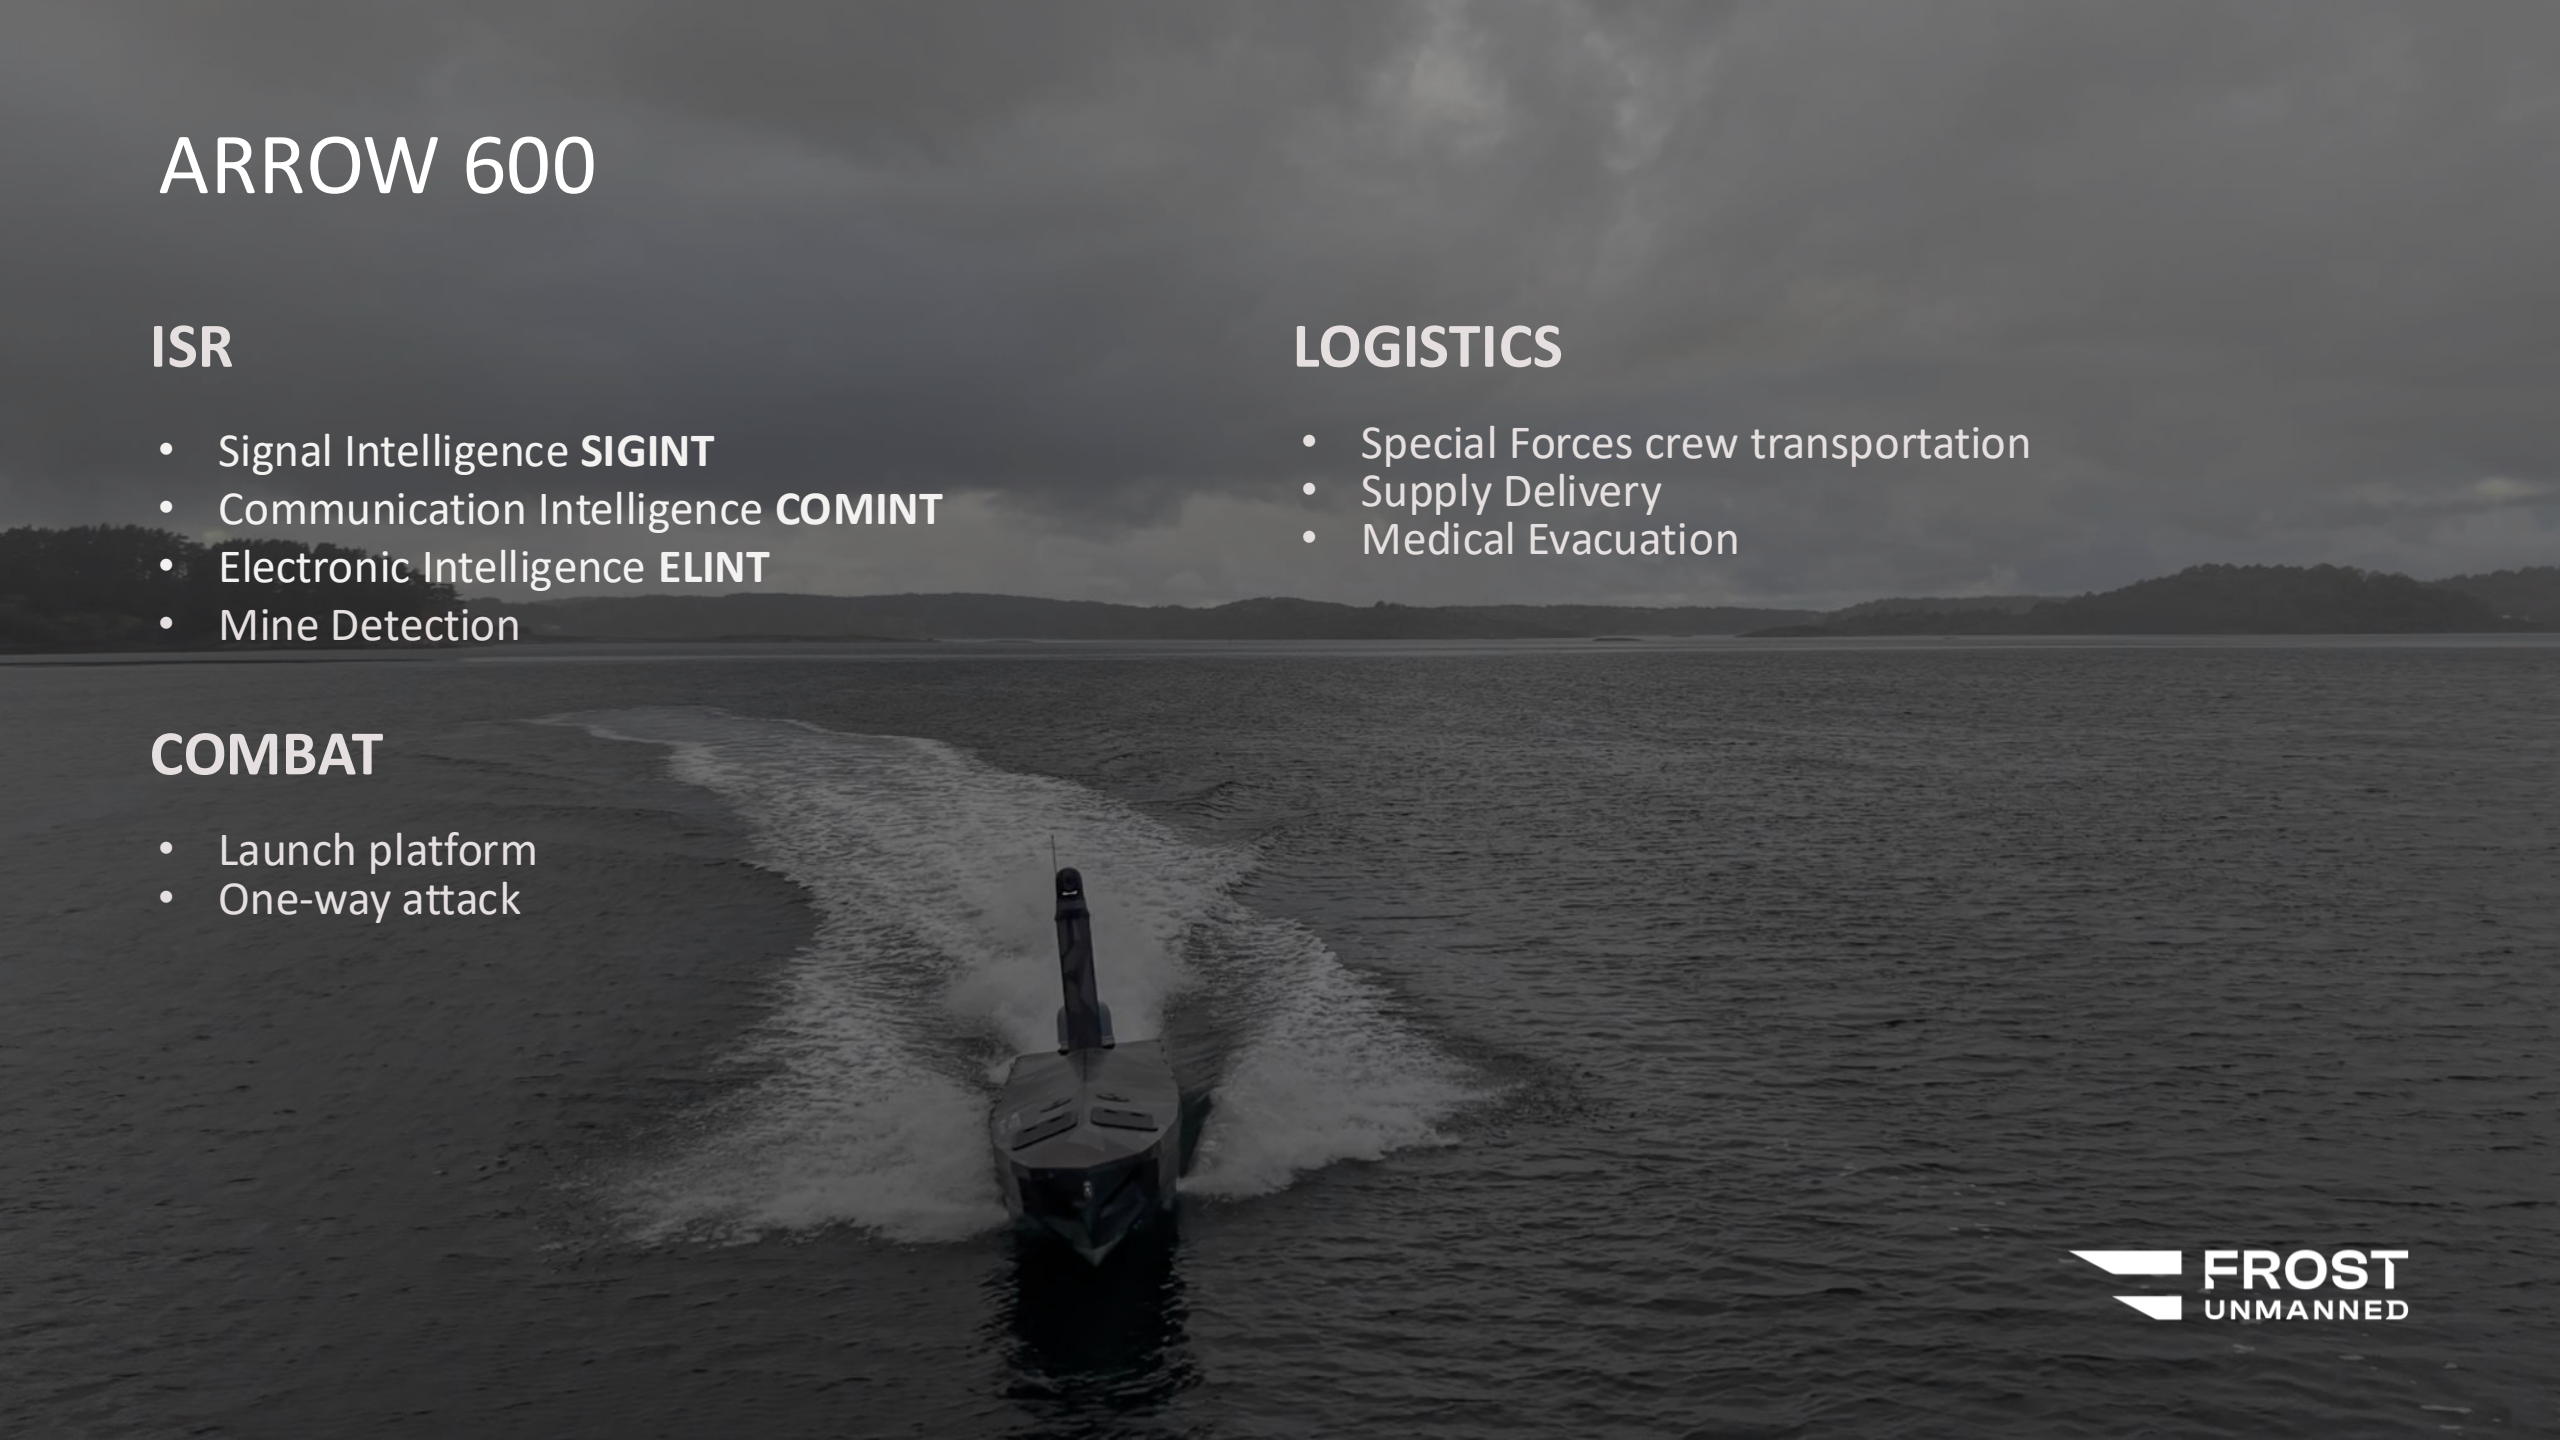

- Signal Intelligence **SIGINT**
- Communication Intelligence **COMINT**
- Electronic Intelligence **ELINT**
- Mine Detection

LOGISTICS

- Special Forces crew transportation
- Supply Delivery
- Medical Evacuation

COMBAT

- Launch platform
- One-way attack

FROST UNMANNED

ARROW 600

RANGE

200 NM (~ 370 KM)

SPEED

UP TO 35 KNOTS (65 KM/H)

PAYLOAD

250 KG (~ 550 POUNDS)

LOGISTICS

- Special Forces crew transportation
- Supply Delivery
- Medical Evacuation

ISR

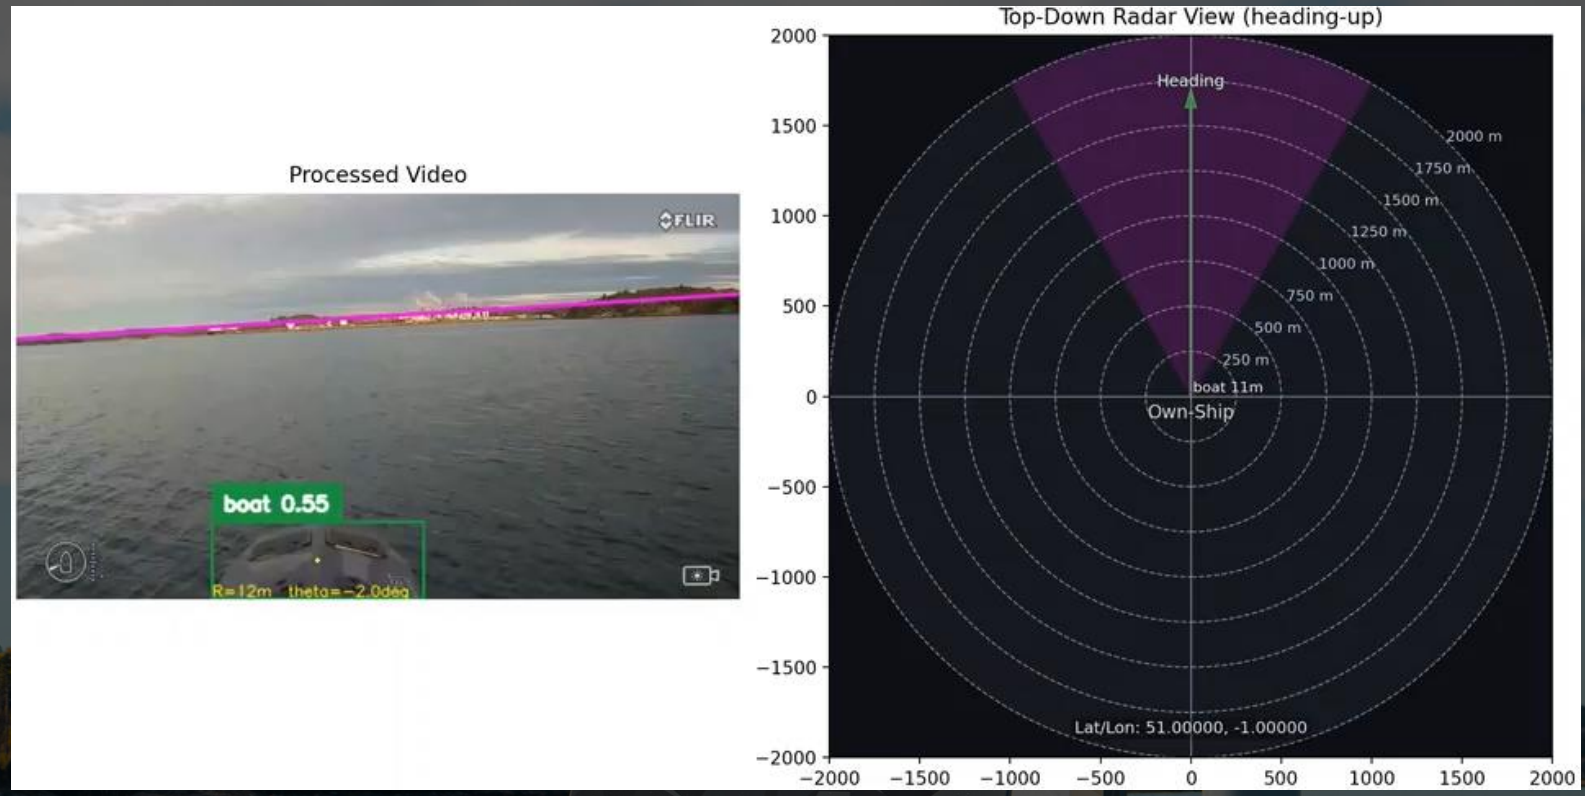

- Signal Intelligence **SIGINT**
- Communication Intelligence **COMINT**
- Electronic Intelligence **ELINT**
- Mine Detection

COMBAT

- Launch platform
- One-way attack

FROST UNMANNED

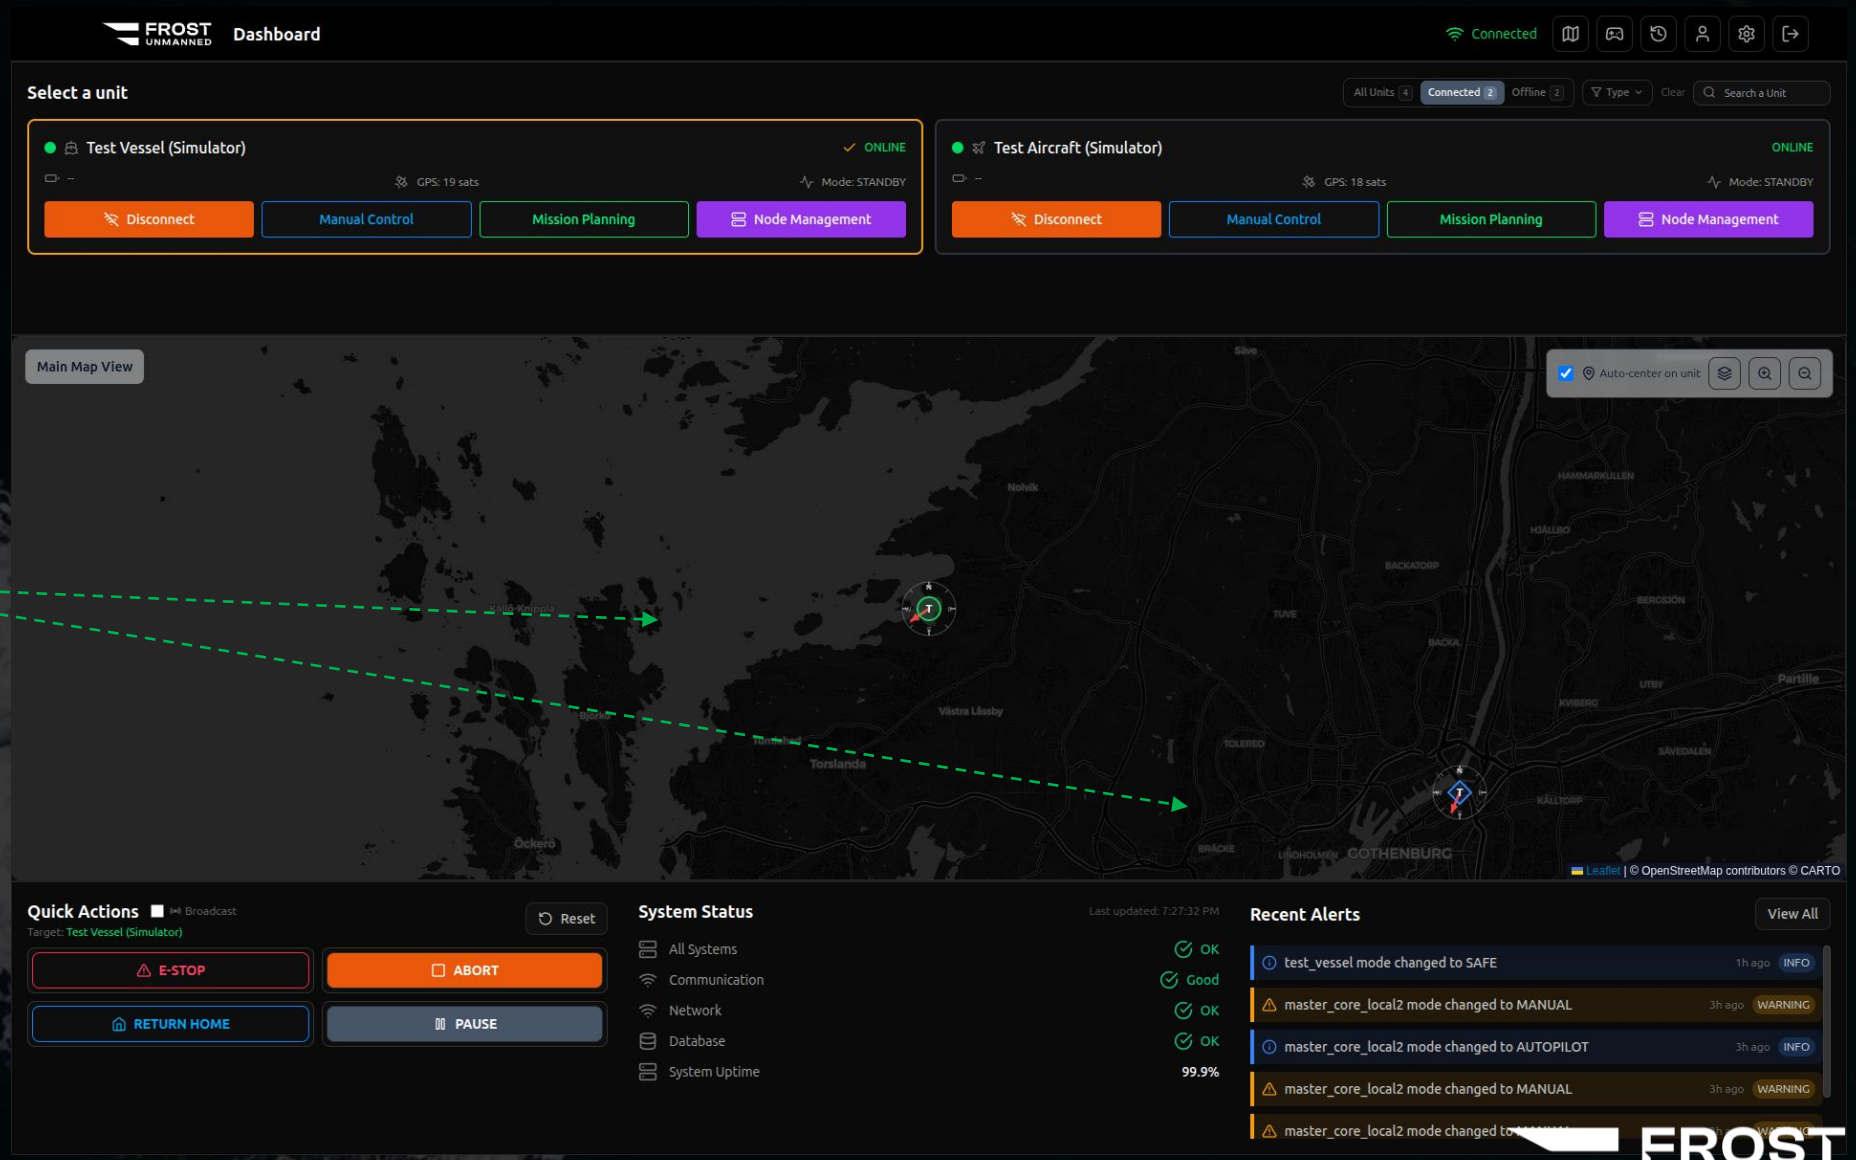

ADVANCED SITUATIONAL AWARENESS – FROST SENTINEL

FROST UNMANNED

Ground Control Server and USV capabilities

Multi-Unit Control

FROST UNMANNED

Ground Control Server and USV capabilities

FROST UNMANNED

OPTIMIZING DEFENSE EFFICIENCY

SOVEREIGN CONTROL

Produced in Sweden.

OPERATIONAL EFFICIENCY

Reduces personnel risk, operational costs, and boosts mission success.

SCALABLE SOLUTIONS

Multiple USVs controlled simultaneously for enhanced coverage.

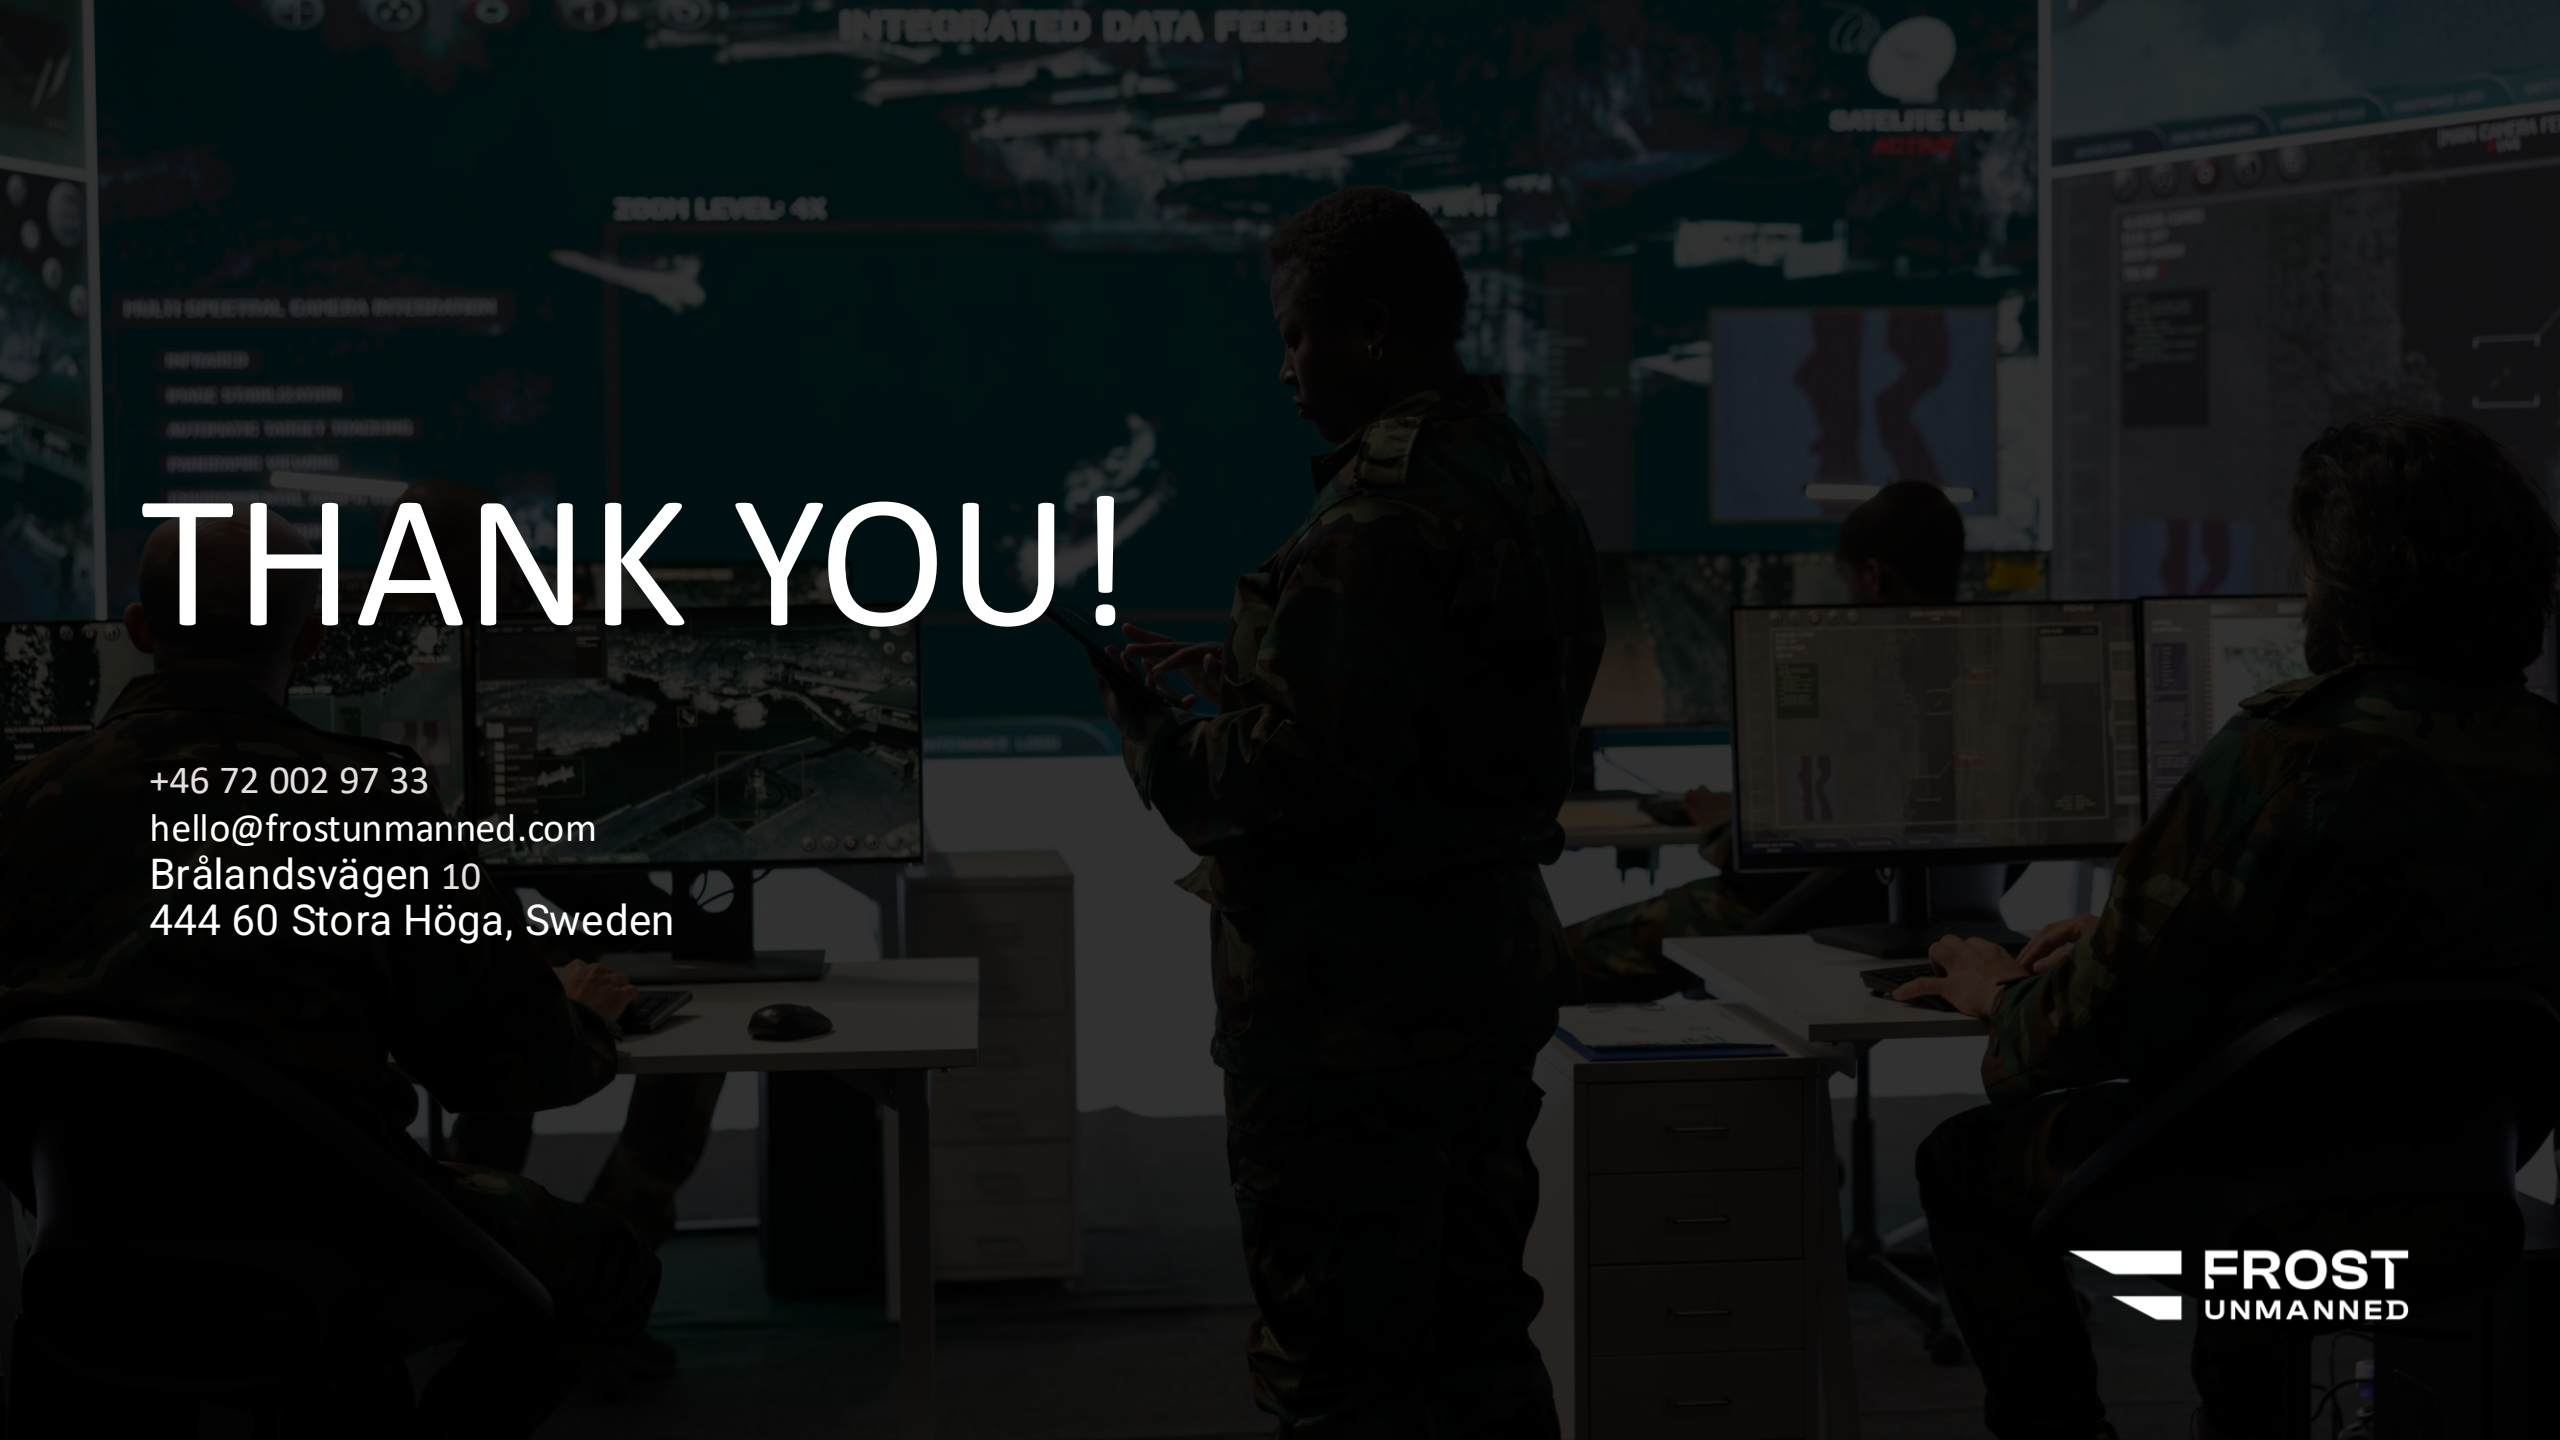

LOGISTICAL CONVENIENCE

Conveniently transported in containers, reducing deployment time and costs.

AFFORDABLE PRICING

Superior capabilities at a fraction of the cost compared to conventional military ships.
