

NEW POLITICS ACADEMY IS A NONPARTISAN NONPROFIT DEDICATED TO DEMOCRACY.

New Politics Academy (NPA) is building a movement to revitalize American democracy by recruiting, supporting, and empowering servant leaders who put community and country over self.

Forged by service in the military, AmeriCorps, Peace Corps, and other community- and country-first organizations, servant leaders have a proven record of bringing people together and getting hard things done.

We're asking them to take their next step in service with New Politics Academy.

“The Foundations course made running for office not only seem possible but, more importantly, empowering. I felt inspired to continue to pursue my passion for school policy by running for my local school board.

I like to think Foundations helped me find my voice.”

CASE STUDY: STATE REP. PHIL OLALEYE

Phil Olaleye grew up in a working class family in Stone Mountain, GA. After college, Phil embarked on his career of service by joining the Peace Corps, where he spent three years supporting an indigenous community in the Philippines.

When Phil was ready to serve again, he turned to NPA. In 2017, Phil graduated from our flagship program, Answering the Call, where he dove deep into his motivations for public service before entering politics. He doubled down on his commitment to service in 2022, when he was elected to represent Georgia's 59th District in the Georgia House of Representatives.

“Answering the Call provided a unique opportunity to dive deeply into my motivation behind running for office. The program inspired me to speak my truth on the campaign trail, and to better represent the needs of my peers and future constituents.

It made me a better candidate—bar none.”
