

STORMSAFE™

Impact Windows

UP TO DP 120 +/-
SUPERIOR SAFETY & SECURITY

PERFORMANCE

- The fusion-welded 3½" frame and sash ensure superior structural integrity while delivering nearly double the insulating value of typical fiberglass insulation

ENERGY EFFICIENT

- Over 20 insulating air chambers redefine strength and thermal performance.

SECURITY

- Elevate your window security with standard metal sash locks that seamlessly secure into sturdy reinforcements for enhanced protection.

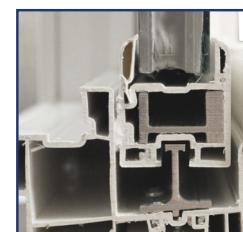

STRENGTH

- Heavy-duty aluminum reinforcements enhance strength and durability, helping meet Missile D and HVHZ (High Velocity Hurricane Zone) impact certifications.

WEATHER BARRIER

- Designed to stay locked in extreme conditions, the reinforced T-Lock system and advanced weatherstripping help defend against wind-driven rain and air infiltration.
