CHAIRMAN'S REPORT 2019

It is my pleasure to report on the successful achievements of the Corporation for the financial year 2019 with its financial and operational performance.

The Corporation continues to provide access to financial services for those on modest income recognizing that adequate shelter is a fundamental human right and it also raises the level of private home ownership in the country. The total value of loans approved in 2019 was \$23.8 million tala a 7% increase from the previous year as the demand for loans grew steadily. The value of the total loans portfolio for the Corporation increased from \$48.4 million tala in 2018 to \$56.2 million tala in 2019 a 16% increase as the Corporation continues to grow and attract business in a competitive housing market.

Our other major activity is the provision of residential rental properties to Samoan families. Since the transfer of rental housing in 2013, 68 houses have been completely renovated except for the remaining four houses which require total rebuilds following their demolition given their deteriorating condition. This rental housing portfolio was in a very poor state of repair and required extensive renovations. We are also happy to report that occupancy of the rental stock is 100% with good performance on rental payments with very minimal arrears as we build stable and good landlord tenants relationships.

It is also imperative in our Corporate Plan 2019-2022 that the Samoa Housing Corporation legislation be reviewed to ensure the Corporations current operational status is aligned with its own Act. We have obtained technical assistance from the Samoa Governance Programme to enable this major reform.

The rapid growth and development of Samoa Housing Corporation comes with consequential challenges in funding such growth. Hence we are exploring the possibilities of changing our main source of external funding and access more funding at cheaper rates by becoming a non-bank deposit taking institution which would enable us to accept term deposits from the people of Samoa or from other institutions.

During 2019 there were 10 Board meetings and 6 Sub-Committee meetings of the Audit and Rental Sub-Committees. There are 5 Board members with 20% female composition. We ensure that governance structures and process reflect on principles of good governance, transparency and accountability.

On behalf of the Board of Directors I applaud and congratulate the Management and Staff for its record achievements and successful financial year.

CHIEF EXECUTIVE OFFICER'S REPORT

I am pleased to advise that Samoa Housing Corporation continues to grow strongly and deliver the required results for all of our stakeholders including our customers - the people of Samoa, the Government of Samoa and our staff.

The 2019 financial year was a successful one for Samoa Housing Corporation with several milestones being achieved.

- The total loans portfolio increased by 16% to \$56.2 million tala, a record level for lending as the demand for services grew substantially.
- New lending limits and delegation authorities have increased the capacity of Samoa Housing Corporation to attract more business and optimise its performance.
- Total income increased to \$7.8 million tala up 13% from 2018 while total costs increased to \$5.9 million tala or 4% from the previous year.
- A record profit of \$1.8 million tala has been achieved in 2019 a substantial 55% increase from the previous year as the Corporation continues to streamline its procedures and processes attracting business and increasing revenues.
- Return on equity was 5% compared to 4% in previous year although the real return on equity is more than 5% if we factor in our community service obligation bringing down interest rates to concessional levels.
- A further 8 houses were renovated at a total cost of \$289,775 during the 2019 financial year.
- Total income received from rental housing was \$647,034 or a 7% increase from the previous year. The capital value of rental housing has increased to \$5.5 million tala nearly double the value transferred from the previous administration of \$3.0 million tala.

A Taskforce for Samoa Housing Corporation's New Building Project comprising of its partners in Government Ministries such as MPE, MNRE, MOF and MWTI continues to meet to develop a building concept plan and advise the Cabinet on its progress. It is important that the Corporation address its own housing and office needs in the future as it continues to grow and develop while serving its mandate and core function.

The SHC Act 2010 is being amended to reflect government policy regarding the rental portfolio specifically its functions, authorities and responsibilities required for policy compliance. Hence its policy manual must be aligned to its legislative requirements.

Efforts are being made to further incorporate in the review of the legislation ways to access more funding at cheaper rates by changing the main source of external funding or borrowing long-term. SHC has therefore approached the Central Bank of Samoa to become a non-bank deposit taking institution (NBDTI) which would enable us to accept term deposits from the people of Samoa or from other institutions. We are confident that the public will view SHC as a safe place to deposit their money because of its long-standing stable reputation.

Investment in our staff through training and capacity building is important to us and high staff morale is predominant with minimal staff turnover.

I congratulate all the stakeholders for their commitment and dedication that made 2019 a very successful year.

REPORT OF THE AUDIT OFFICE

TO THE GOVERNING BODY IN CHARGE OF GOVERNANCE – SAMOA HOUSING CORPORATION

Audit Opinion

We have audited the accompanying Financial Statements of the Samoa Housing Corporation which comprise the Statement of Financial Position as at 30 June 2019, the Statements of Financial Performance, Changes in Equity and Cash Flows for the year then ended, a Summary of Significant Accounting Policies and Other Explanatory Notes. The Accounting Firm of Ah Chong, Chartered Accountants, assisted in the audit. The Engagement Partner on the audit resulting in this Independent Auditor's Report is Su'a Rimoni Ah Chong.

In our opinion, the financial statements give a true and fair view of the financial position of the Samoa Housing Corporation as at 30 June 2019, and of its financial performance, changes in equity and cash flows for the year then ended, in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of Financial Statements* section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of financial statements in Samoa, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Responsibilities of Those Charged with Governance for the Financial Statements

Directors and Management are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as directors and management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors, either intend to liquidate the Corporation or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with these International Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

AUDIT OFFICE

*Please address all correspondence
to the Controller and Auditor General*

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors and management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures, are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors and Management regarding, among other matters, the significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We have obtained all the information and explanations that we have required. In our opinion the Corporation has kept proper accounting records, as far as it appears from our examination of them and the financial statements of the Corporation also provide in the prescribed manner the information required by the Housing Corporation Act 2010 and the Public Bodies (Performance and Accountability) Act 2001.

Our audit was completed on the 10th October 2019 and our opinion is expressed as at that date.

**SAMOA HOUSING CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2019**

1. General Information

The Housing Corporation was established on May 1990 by an act of the legislature (Housing Corporation of Samoa Act 1989). The new legislation, Public Bodies (Performance and Accountability) Act 2001 overrules the initial Act. However, review of the Housing Corporation Act 1989 was approved by Parliament in 2010 as Housing Corporation's Act 2010 and is now enacted. The main purpose of the Corporation is to improve housing and living conditions of lower moderate income persons and families by lending monies on mortgage or other securities to assist to build, extend, renovate or purchase land for the purpose of building a home thereon.

The Cabinet at its meeting in May 2013 approved the transfer of Government Rental Portfolio under the Ministry of Work, Transport & Infrastructure to the Samoa Housing Corporation to operate as commercial rental properties.

The Corporation's operations are directed by a 5 - member board of directors. The Board are all appointed members from the private sector.

2. Statement of Significant Accounting Policies

Set out below is a summary of significant accounting policies adopted by the corporation in the preparation of its financial statements.

a) Statement of compliance

These financial statements have been prepared in accordance with the requirements of the Public Finance Management Act 2001 which requires the adoption of International Financial Reporting Standards issued by the International Accounting Standards Board (IASB). These financial statements comply with International Financial Reporting Standards, including the new IFRS 9 - Financial Instruments; and IFRS 15 - Revenue from Contracts with Customers, which came into effect for reporting periods beginning on or after 1 January 2018. In accordance with section 91 of the Public Finance Management Act 2001, Samoa Housing Corporation is designated as a Public Body, therefore it must also satisfy the reporting requirements under the Public Bodies (Performance & Accountability) Act 2001.

b) Basis of preparation

The financial statements are prepared on the basis of historical costs except for land and building which have been revalued. Reporting financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period and future periods.

c) Comparative information

Comparative information has been restated where necessary to achieve consistency in disclosure with current financial year amounts.

d) Functional and presentation currency

The financial statements are presented in Samoan Tala (SAT\$), which is the corporation's functional currency and all values presented in Samoan Tala have been rounded to the nearest Tala.

e) Foreign currency

Transactions in foreign currency are translated to Samoan tala at the foreign exchange rate ruling at the date of the transaction. Amounts receivable and payable denominated in foreign currencies are translated at the rates of exchange ruling at balance sheet date. Foreign exchange differences arising on translation are recognized in the statement of financial performance.

f) Bad debts and provision for doubtful loans

Specific provision

The Corporation conducts a yearly review of individual loans accounts to recognize impairment on those loans with reasonable doubt that not all the principal and interest can be recovered in accordance with terms and conditions of the loan agreement. Bad debts are written off against the provision for doubtful debts in the period in which they are identified as unrecoverable.

**SAMOA HOUSING CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2019**

2. Statement of Significant Accounting Policies (cont'd)

f) Bad debts and provision for doubtful loans (cont'd)

General provision

The Corporation also take into account the fact that a portion of receivable balances may not be recovered due to unforeseen circumstances. Therefore, it may be prudent to create a general allowance for doubtful debts in addition to the specific allowance. The general allowance is calculated on the basis of past experience concerning recoverability of debts.

g) Revenue recognition

Interest income

Interest income on loans and investments are recognized on accruals basis. Interest on impaired loans is recognized only when income is received.

Loan fees

Loan fees are recorded when they are earned. Fees on impaired loans are recognized only when income is received.

Rental income

Rental income from investment properties is recognized on a straight-line basis over the term of the relevant operating lease.

h) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and on hand and short term deposits with maturities less than one year.

i) Loans and other receivables

Loans and other receivables are recorded at fair value after providing for bad and doubtful debts or credit losses. At the end of each reporting period, the carrying amounts of loans and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognized immediately in the statement of financial performance.

j) Fair value estimation

Fair value is determined as follows:

- Cash assets are carried at fair value;
- Receivables are carried at book value, which is the best estimate of fair value as they are settled within a short period;
- Loans are net of provisions for impairment.

k) Financial assets

The Corporation classifies its financial assets in the following categories; loans & receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted on an active market.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not categorized in any of the other categories.

l) Provisions

A provision is recognized in the statement of financial position when the Corporation has a present legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

**SAMOA HOUSING CORPORATION
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2019**

2. Statement of Significant Accounting Policies (cont'd)

m) Accounts and other payables

Accounts payable and other payables are recognized at cost and represent liabilities for goods and services provided to the corporation before the end of the financial year that are unpaid and arise when the corporation becomes obliged to make future payments in respect of the purchase of these goods and services.

n) Property, plant and equipment

Items of property, plant and equipment are measured at cost and/or valuation less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to allocate the values of assets less their residual values over their estimated useful lives, using the straight-line method. All direct costs attributable to acquisition of assets have been capitalized. The following rates are used for the depreciation of property, plant and equipment:-

Building	2.5%
Motor vehicles	20%
Office furniture	20%
Office equipment	10% & 33%
Computer software	33%
SHC Logo	5%
Rental units	3% & 5%
Rental others	33%

o) Dividends

Dividends are recognized as a liability in the period in which they are due and payable pursuant to the Public Bodies (Performance & Accountability) Regulations 2002. However, pursuant to Cabinet approval FK (16) 39 dated 25 October 2016, the dividend relating to 2013 through to 2018 are now to be retained and transfer to a reserve for the repairing of rental units of the Corporation.

p) Borrowing costs

All borrowing costs are recognized in the statement of financial performance in the period in which they are incurred.

q) Employee benefits

The corporation contributes towards the Samoa National Provident Fund, a defined contribution plan in accordance with local legislation and to which it has no commitment beyond the payment of contribution. Obligations for contributions to the defined contribution plan are recognized immediately in the statement of financial performance.

Liabilities for employees' entitlements to salaries and wages, annual leave and other current employee entitlements (that are expected to be paid within twelve months) are accrued at undiscounted amounts, and calculated at amounts expected to be paid as at reporting date.

r) Taxation

The Corporation is exempt from tax under section 51 of the Housing Corporation Act 2010.

s) Leases

Lessor leases are treated as finance leases where the term of the lease represent a substantial part of the life of the asset and there is an option to buy, at the end of the lease and ownership passes. For all Lessee leases the Right of use asset, and the related lease liability are taken up at initial recognition at present value of the lease liability over the lease term, and then the liability payments are allocated between interest and liability reduction while the asset is depreciated over the term of the lease. The exceptions are, when the lease term is 12 months or less or the values involved are small, and where rentals are recognised on the straight line basis.

t) Investment Properties

Investment properties are properties held to earn rentals or for capital appreciation. Rental Units of the Corporation are accounted for as investment properties and depreciated in accordance with the useful lives of the properties. They are initially recognised at cost and valued using the cost model.

15. Dividend Payable

The Public Bodies (Performance and Accountability) Regulations 2001 Schedule 6 paragraph 6.2.1(d) specifies that the annual report shall include "the dividend payable by the Public Body to the State for the financial year to which the report relates". Furthermore, Schedule 7 (paragraph 25.2) requires "a company to pay dividend in accordance with the Government's dividend policy as advised by the Financial Secretary from time to time". In May 2005, the Chief Executive Officer, Ministry of Finance advised that Public Trading Bodies would be accountable for a dividend of 50% of Net profit after tax. A new Cabinet decision FK(18) 25 in August 2018 directed that this rate is now to be 35% of Net Profit after tax.

In October 2016, Cabinet approved the Corporation's proposal to retain all dividends from FY:2013-2014 to FY:2018-2019 as a reserve to cover all renovation costs incurred for the remaining units plus building of new rental units. Therefore, dividends for FY2013-2014 to FY2018-2019 have been transferred to Reserve as per Note 12.

iii) Terms and conditions of transactions with related parties

Sales to and purchases from related parties are made in arm's length transactions both at normal market prices and on normal commercial terms.

24. Financial Instruments

This section outlines the Corporation's exposure to financial risks and describes the methods used by management to control and monitor these risks. The major risks are credit risk, fair values, market risk, liquidity risk and operational risk.

a) Credit risk

Credit risk refers to the risk that a customer will default on its contractual obligations resulting in financial loss to the Corporation.

The Corporation has adopted a policy of dealing with creditworthy customers except when otherwise required by government for public beneficial reasons, and obtaining sufficient collateral where appropriate, as a means of mitigating the risks of financial loss from defaults. The Corporation exposure and the credit ratings of its customers are continuously monitored and the aggregate value of transactions concluded is spread amongst approved customers. Credit risk is closely monitored by the Lending Division and Securities and Recoveries Division through regular independent reviews designed to test the quality of credit exposures and to ensure compliance with Corporation policies.

b) Fair values

All financial instruments are carried at fair values.

c) Market risk

Market risk is the risk that changes in market prices, such as interest rates, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's/issuer's credit standing) will affect the Corporation's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

d) Liquidity risk

Ultimate responsibility for liquidity risk management rests with the board of directors.

The Corporation manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and cash flows and matching the maturity profiles of financial assets and liabilities.

e) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Corporation's involvement with financial instruments, including processes, personnel, technology and infrastructure and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior.

24. Financial Instruments (cont'd)

f) Operational risk (cont'd)

The Corporation's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Corporation's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management within each business unit.
