# What is the Ihsan Adaptation Service?

Many scholars or Islamic educators hold years of lectures, recordings, and ideas that slowly disappear over time, stored away, forgotten, or eventually lost.

The most effective way to preserve that knowledge is to turn it into a book.

Or they have brilliant ideas for books that would benefit countless people.

But writing a book requires time most scholars do not have, and finding someone trustworthy to handle such difficult work is rare.

## **We at Ihsan Inkwell solve this.**

With our Ihsan Adaptation Service, our vetted team of experts transform your lectures, courses, or ideas into a print-ready book, whilst fully collaborating with you.

*You lead the vision. We handle all the work.*

# Why Ihsan Inkwell Exists

**Ihsan Inkwell exists to serve scholars by doing the work around the knowledge — so scholars can focus on the knowledge itself.**

---

**We believe knowledge deserves permanence.**

Not temporary. Not hidden.  
Not lost after a single delivery.

We help transform lectures, notes, and manuscripts into clear, authoritative, and beautifully produced books — while you maintain full scholarly control, precision, and integrity.

Your knowledge is timeless,  
filled with excellence and  
sourced from the Divine.

---

Your book should  
reflect that.

# Who This Service Is For

We work with:

**1** Islamic scholars  
and teachers

**2** Madrasahs and  
institutions

**3** Researchers and  
academics

**4** Educators with  
lectures, courses or  
unpublished material

If you have knowledge worth preserving, teaching,  
or publishing — this service is built for you.

# The Process

A CLEAR, COLLABORATIVE JOURNEY

## Discovery Call

### ***CLARITY WITH YOU BEFORE COMMITMENT***

We begin with a discovery call to fully understand:

- Your vision and intended goal with the book
- Your delivery style and methodology
- Your target audience and depth level
- Your current resources (recordings, notes, etc.)
- The scope and structure of the project

This ensures the work is shaped around your approach – not a generic template.

In this call, your quote will also be finalised.

# Extracting Your Knowledge

***YOU DELIVER. WE ORGANISE.***

We study all existing material you have:

- Recorded lectures
- Notes and outlines
- Drafts or manuscripts
- Audio recordings or talks

Our team extracts:

- All the key points and themes
- The logical structure
- Supporting examples and explanations you gave

Your knowledge is preserved – simply clarified and organised.

If we're producing a book from an idea alone, without any resources like recordings, notes, etc., then this step will consist of several online meetings where we collaborate with you to develop the core knowledge and themes of your book.

# Manuscript Development

**SERIOUS RESEARCH AND DRAFTING. DONE FOR YOU.**

After the knowledge extraction, if the projects requires it, our researchers (made up of a team of vetted scholars) will consult the following resources in the relevant sciences of your project:

- Primary base texts (*mutūn*)
- Authoritative commentaries (*shurūh*)
- Relevant marginal glosses (*ḥawāshī*)
- ...and any other Arabic resources
- or non-Arabic resources, as required

We handle all of the following:

- Extensive research and compilation
- Full writing and editing of the project
- Structuring chapters and flow, whilst consulting you

You are not required to chase references or sources, or do any extensive writing. We do the legwork — keeping in the loop of everything being done.

# Design & Production

***DESIGNED FOR UNDERSTANDING, NOT JUST DECORATION***

Once the manuscript is finalised, we begin design. This includes:

- Clean, readable typography
- Structured layouts for long study
- Diagrams, tables, and visual explanations, in our Ihsan-Inkwell style (if required)
- Illustrations where appropriate
- Full typesetting and layout design

The goal is clarity—helping readers understand complex ideas with less effort; turning every book into a premium product.

These are books for the 2020s.

## Scholar Review

***YOU RETAIN FULL AUTHORITY***

After the final book design is finished and fully prepared, you review:

- The manuscript
- The structure
- The design

Nothing is finalised without your approval.

Revisions are made until the work meets your scholarly standard and expectations.

# Final Delivery

### ***YOU OWN EVERYTHING***

Once the book has been finalised, the entire project, with all its rights, are handed over to you.

You receive:

- Print-ready files
- Digital versions (if applicable)

You retain full rights:

- Printing
- Publishing
- Distribution
- Intellectual property

This is your work — professionally developed.

---

*Ihsan Inkwell Services will soon offer publishing services, where the entire printing process is managed for you, maintaining the quality of your print at extremely cost-effective rates.*

# WHAT MAKES IHSAN INKWELL DIFFERENT

## **Scholar-First Process**

We understand scholarly caution, precision, and responsibility.

## **Full Rights Retained**

You own the manuscript, design, printing, and distribution completely.

## **Professional Collaboration**

Respectful, clear communication throughout the entire project.

## **Modern, Premium Output**

Books designed to be studied, kept, and respected.

## **Classical Research Capability**

We consult high-level Arabic sources where the project requires it.

## **Built for the Modern Muslim Mind**

Your book will feel accessible, structured, and relevant.

# Pricing

The Ihsan Adaptation Service is an all-inclusive offer that covers the complete writing and design of your book. As each project is unique, pricing varies based on scope and complexity.

Project pricing is primarily determined by:

- Final word count (writing and adaptation)
- Final page count (design and layout)

Additional factors that may affect pricing include:

- Research intensity
- Level of design and visual production
- Number of illustrations or diagrams

Pricing is established after an initial discovery call. A provisional quote is issued based on an estimated word and page count. Upon completion, a final quote is calculated using the exact figures.

# Pricing

## *continued*

**Payment Terms:** 50% of the estimated quote is paid before project commencement. The remaining balance, based on the final quote, is due upon delivery of the completed book.

**Flexible payment plans are also available.**

---

Our projects typically range from £3,000 to £12,000+, depending on scope. Unlike standard editing or proofreading services, this is a full adaptation and execution service. We don't work per task. We build complete books.

---

### **100% Money-Back Guarantee**

If you are not satisfied with the quality of our work, we commit to revising it until it meets the agreed standard. If, after revisions, you still feel the service does not reflect the quality promised, Ihsan Inkwell will issue a full refund.

# Your Legacy Begins Here

You have spent years  
teaching, researching,  
and guiding.

---

Your knowledge should  
live far beyond the  
classroom or lecture hall.

---

**A book is clarity.**  
**A book is permanence.**  
**A book is legacy.**

---

You guide.  
We build your book.

Your book is waiting to be  
created.
