Tribe's exclusive transport fleet provides transfers between the hotel and airport, and can be reserved by guests for excursions and tours to see Nairobi and its surroundings, in style.

Unique to Tribe is the option of rising above Nairobi's notorious traffic, with helicopter transfers to the city's airports, or exploring nearby tea fields, mountains and lakes - all from the hotel's helipad on the hotel's lower lawn.

Located in Nairobi's leafy diplomatic district - Gigiri - Tribe is ten minutes from the city center, and 25 minutes to the regional and international airports. Within walking distance from the hotel sits the global headquarters for the United Nations Environment Programme (UNEP), Habitat and the World Agroforestry Centre, as well as multiple NGO's and foreign missions including the US Embassy, Swedish Embassy and Canadian High Commission.

Also in the area is Karura forest, the largest of Nairobi's three urban forests - a safe and beautiful place to explore running paths, waterfalls, caves, bird-life and Kenya's indigenous trees.

Tribe serves as a perfect complement to the adjacent shopping mall, The Village Market. Designed as an expansive lifestyle center with flowing rivers and waterfalls, The Village Market is Nairobi's premier retail and cultural destination. With over 150 shops and services; banking, ATM and foreign exchange facilities and over 20 restaurants, the center offers guests an ability to discover, shop and unwind in a comfortable and safe environment. The Village Market is also home to the weekly Maasai Market which hosts 350 artists for a colorful display of crafts, paintings, beadwork and fabrics every Friday.
