

Complete protection for desktop and mobile devices.

IDShield partners with Trend Micro to delivery unmatched security, including anti-malware protection, VPN Proxy One and Password Manager for both desktop and mobile devices.

Anti-Malware Protection

Cloud-based AI technology delivers highly effective and proactive protection against ever-evolving malware infections.*

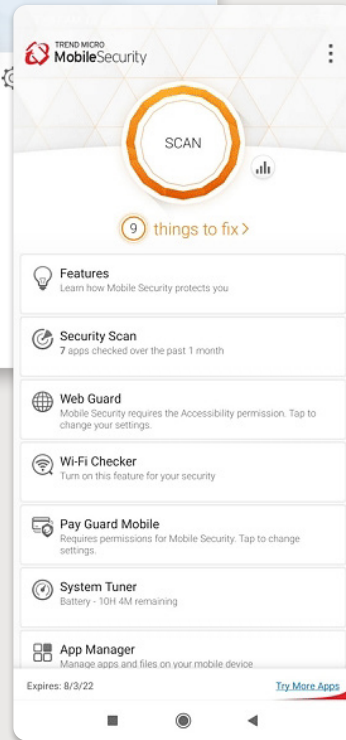

Online Parental Controls

Set parental controls and content filters to monitor and block what web pages can be viewed, and schedule specific timeframes for when their children can browse the web.

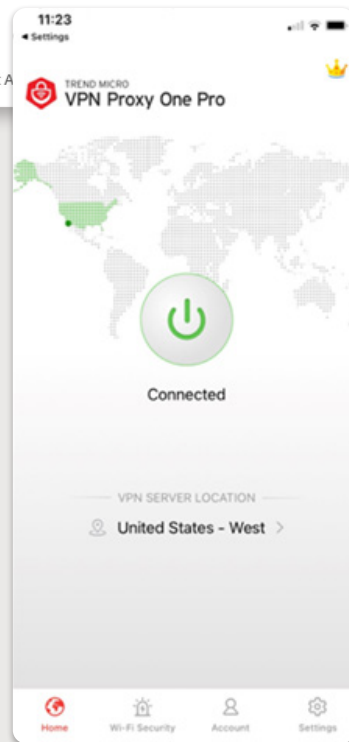

Mobile Security

IDShield's mobile security from Trend Micro provides protection from ransomware, potentially dangerous and harmful websites, unsafe Wi-Fi networks, and more. Participants can even track, lock, and/or wipe a lost or stolen device.

VPN Proxy One

Bank-grade data encryption to prevent a participant's incoming and outgoing internet traffic from being tracked, hacked or censored. It turns a public hotspot into a secure Wi-Fi.*

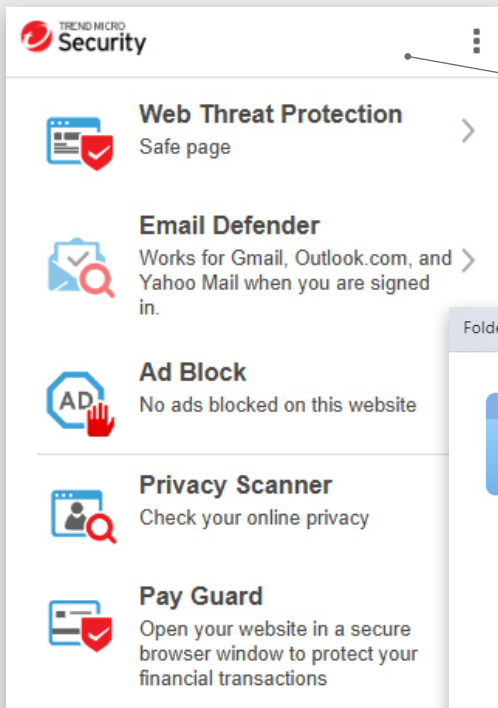

Password Manager

Create strong and unique passwords and safely secure them. Identify weak passwords and change them with unique, tough-to-hack passwords.**

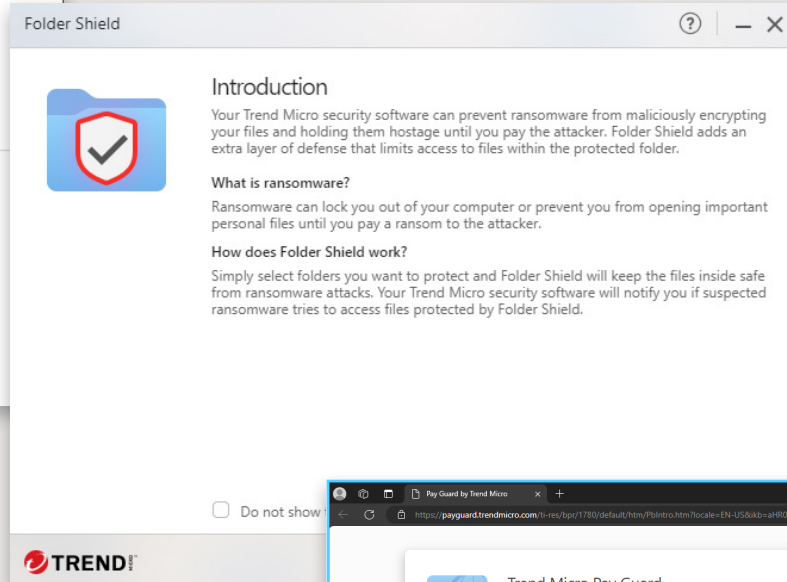

*IDShield Individual Plan protects up to 3 devices while the Family Plan protects up to 15.

**IDShield's Individual Plan provides 1 password manager; The Family Plan provide 6.

Toolbar

A browser extension that warns users about security risks associated with websites they visit. It monitors and rates links in search engines and social media channels, and shows ratings when the mouse hovers over a link. The toolbar also protects against phishing scams, banking scams, tech support scams, and identity theft.

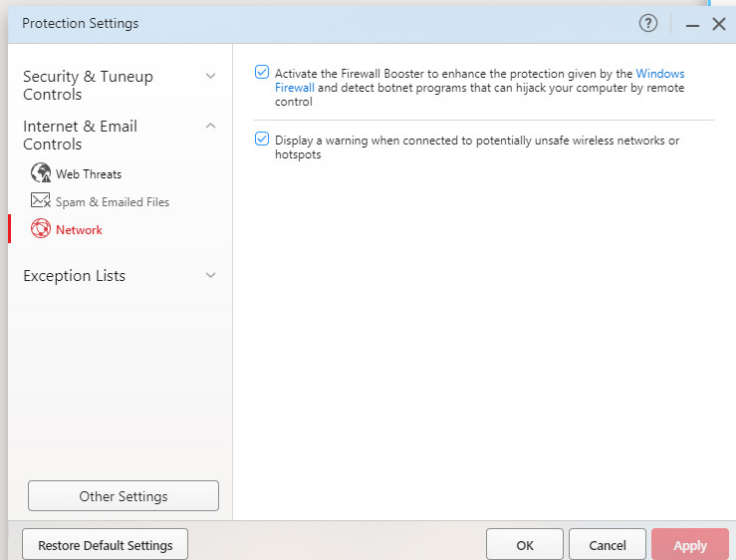

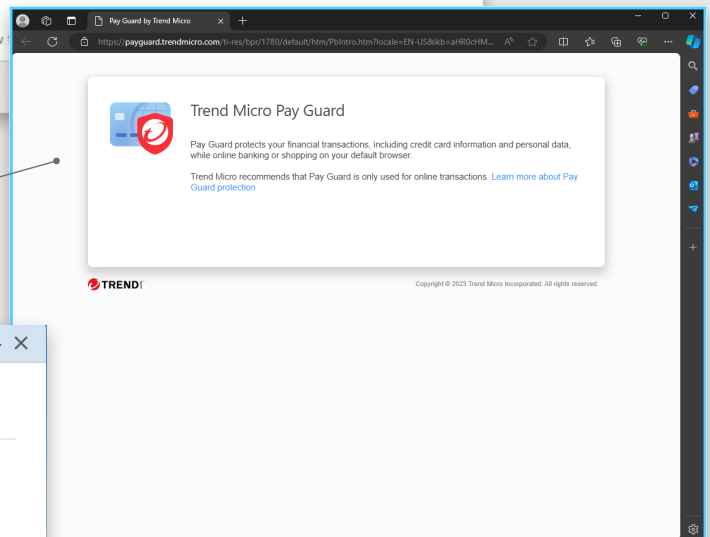

Folder Shield

Adds an extra layer of defense that limits access to important files and folders. It prevents ransomware from maliciously encrypting these files and holding them hostage until the attacker is paid.

Pay Guard

Protects financial transaction data against security and identity threats. Upon visiting banking or shopping websites, Pay Guard opens a secure default browser, safeguarding online transactions.

Firewall Booster

Enhances Windows Firewall's functionality. It provides network vulnerability detection and anti-botnet*** protection, including a Network Virus Scan.

IDShield is a product of Pre-Paid Legal Services, Inc. ("PPLSI") and provides access to identity theft protection and restoration services. IDShield plans are available at individual or family rates. A family plan covers the named member, named member's spouse or domestic partner and eligible dependent children. Consultation and restoration services are available for eligible dependent children ages 18 to 26 who permanently reside in the same residence as the named member. Some of the services provided under the plan by third party providers are subject to change without notice. All Licensed Private Investigators are licensed in the state of Oklahoma. An Identity Fraud Protection Plan ("Plan") is issued through a nationally recognized carrier. PPLSI is not an insurance carrier. See a Plan for complete terms, coverage, conditions, limitations, and family members who are eligible under the Plan.

***A botnet is a network of private computers infected with malicious software and controlled as a group without the owner's knowledge.
