

MAISON CHIBERTA

Anglet

In the shade of the pines, just steps from the ocean

DISCOVER ANGLET

Situated between historic Bayonne and cosmopolitan Biarritz, Anglet strikes the perfect balance between preserved nature and urban energy. With 4.5 kilometers of coastline, 230 hectares of forest, and a protected natural park, the third-largest city in the Pyrénées-Atlantiques offers more than just its natural charm.

Boasting 11 fine sandy beaches, including the Océan Beach just steps from Maison Chiberta, Anglet invites you to discover golf and surfing, strolls along the seafront, and unforgettable sunsets. A destination where nature meets the horizon, to be enjoyed at any time of the year.

AN ELEGANT & TIMELESS REVIVAL

Located between the golf course and the ocean, Maison Chiberta unveils a transformation that blends authenticity, character, and refinement.

Rooted in history and defined by its unique architectural signature, the hotel now offers a renewed culinary experience centered on fire and open-flame cooking at its restaurant Abrazo, design by Chef Juan Arbelaez.

At the heart of this transformation is the central patio, inspired by Andalusian and Mediterranean architecture, which has become the vibrant heart of the hotel. Bathed in natural light, it opens onto the restaurant and bar, enhanced by a glass canopy, creating a warm and convivial atmosphere.

Open year-round, with 58 rooms, one restaurant, seven meeting rooms, two reception lounges, a spa, and two swimming pools (indoor and outdoor), Maison Chiberta welcomes travelers, golfers, and locals alike.
