

68% Reduction in Injury-Related Bedroom Falls

Advancing resident safety with AI-driven innovation

To strengthen resident safety across 14 Nebraska communities, Heritage Communities partnered with Inspiren, an AI-powered ecosystem built specifically for senior living. Designed to support fall prevention, real-time alerts, and care planning, Inspiren equips staff with the tools and insights to respond faster, reduce injuries, and deliver more personalized care. Together, they set out to improve fall tracking and significantly reduce the frequency and severity of fall-related incidents.

KEY OUTCOMES

Peace of mind for residents and families.

↑ **100%**

communities increased
fall documentation

↑ **86%**

communities improved
fall outcomes
