

ELBNOVA

Precision when it matters

Elbnova Medical Loupes

■ Clear Vision. Optimal Magnification

www.elbnova.com

General Description

Elbnova Medical Loupes deliver clear, distortion-free magnification with a wide field of view for precise clinical work. Selectable magnification levels (3.5x, 4x, 5x) support different procedures and working preferences. The lightweight design and defined working distances help maintain a stable, ergonomic posture during use.

Key Benefits

- Lightweight design engineered for extended use with reduced neck and facial strain
- High optical clarity for sharp, bright, and distortion-free visualization
- Selectable magnification levels (3.5x, 4x, 5x) to match different clinical tasks
- Defined working distances support ergonomic positioning during procedures
- Designed for precise clinical work in medical, dental and surgical applications

Clinical Applications

General Surgery, Dental Procedures, ENT, Dermatology, Outpatient Care,, and more.
