

DAILY WORK SUMMARY REPORT

Summary of asset activity

Report date 11 September 2026
Time range 12:00am–3:32 pm AEST

Today so far · last movement and totals are provisional up to the report cutoff.

1 REPORT OVERVIEW

ASSET NAME

Sample Technician - DEMO01

REGISTRATION

DEMO01

ASSET REFERENCE

SAMPLE01

OPERATOR / COMPANY

Sample Trade Services

DRIVER NAME

Not assigned

START LOCATION

10 Sample St, Demo Park

END LOCATION

48 Sample Lane, Demo Park

START TIME · FIRST MOVEMENT

9:54 am

LAST RECORDED MOVEMENT

3:32 pm

TOTAL ACTIVE TIME

5h 20m

Exact recorded total;
component times round down
to whole minutes.

Summary: Vehicle completed 7 stops, travelled 30.6 km, spent 4h 5m stopped and had 0m idle time. | Longest stop: 1h 25m at 35 Sample Ave, Demo Park

NOTES & DEFINITIONS

Driving

Point-to-point trips combine consecutive movement into one journey.

Stopped

Stationary for at least 3 minutes.

Idle

Stationary with ignition on for at least 3 minutes.

All times are shown in Brisbane time (AEST, UTC+10).

Activity rows show completed whole minutes. Summary totals use the exact recorded seconds, so manually adding the displayed row times can differ by a few minutes across a full day.

Stops shorter than 3 minutes are excluded.

Distance is calculated from valid recorded GPS movement.

Stops are not treated as jobs or sites without a geofence.

A stationary gap is counted only when the surrounding GPS reports remain within 250 metres.

Movement across missing GPS periods is not estimated.
