## Project Experience

### *Ball Corporation Floor Striping – Bowling Green, KY*

Stewart Richey Painting completed a large-scale floor striping and epoxy coatings project for Ball Corporation's newly built plant in Bowling Green, KY. The team prepared the floor, laid out pedestrian walkways, staging areas, storage lines, and owner-requested stencils, then installed epoxy coatings in colors selected to meet the customer's needs. In total, the project included more than 30,000 linear feet of epoxy coatings.

### *Commercial Specialty Truck Holdings – Cynthiana, KY*

For Commercial Specialty Truck Holdings' new building in Cynthiana, KY, Stewart Richey Painting completed a broad scope of work that included exterior painting, interior painting, warehouse floor joint caulking, warehouse line striping, and epoxy floor coatings. Jimmy served in his leadership role throughout the project, coordinating multiple painting and coatings scopes to support the overall construction schedule and owner expectations.

### *FPI Floor Coatings Project – Franklin, KY*

Stewart Richey Painting completed a floor coatings project at FPI's production facility in Franklin, KY. The team removed existing coatings, cleaned and prepared the floor, primed necessary areas, and laid out new AGV aisles and pedestrian walkways in the owner's selected color scheme. The project began with approximately 34,000 square feet of floor space and has since nearly doubled through additional work completed for the customer.

### *Warren County Impact Center for Leadership and Innovation – Bowling Green, KY*

Stewart Richey Painting is supporting the Warren County Impact Center for Leadership and Innovation with painting, joint sealants, concrete floor sealing, dry fall application on exposed ceilings, and K-13 insulation coating to achieve the finish desired by the owner and architect. The project requires detailed coordination and attention to specialty finishes throughout the facility. Stewart Richey's team is proud to contribute to a one-of-a-kind project for the Warren County community.
