# Director Principal

At The Quantum School, We envision a place where curiosity drives understanding and every child feels empowered to explore, question, and create. We aim to foster purposeful innovation and transformative learning experiences. Over two decades of my experience in leading education, I have discovered that when learners are trusted with meaningful choices, they gain intellectual depth and self-driven agency. With global standards personalised to each child's journey, we will build a compassionate, collaborative community ready not just for exams, but for life.

## Principal Ms Sandhya Ramesh

Meaningful education begins with inquiry, exploration and the joy of discovering ideas. We create a dynamic environment where learning extends beyond textbooks and becomes a journey of curiosity and purpose.

We nurture learners who think critically, act with compassion and engage confidently with the world, supported by hands-on experiences and real-world application.

In a safe, nurturing and stress-free setting that values well-being and student voice, every child grows with confidence.

“Welcome to a place where learning truly comes alive.”

## The Quantum School: Beyond the Conventional. Built for the World Ahead.

Education has evolved, but classrooms have not. Children today need more than memorising chapters and following routines. They need learning that builds clarity, curiosity and confidence for a world that keeps changing.

### At The Quantum School, we move beyond these limits.

Conventional System's beliefs	At The Quantum School, we believe
“PRACTICE MAKES PERFECT.”	“Practice makes perfect” ~ only if you know what you're practising for.
“KNOWLEDGE IS POWER.”	“Knowledge is power” ~ only when you know how to use it.
“STICK TO THE TEXTBOOK.”	“Stick to the textbook”, ~ But master the world beyond it.
“FOLLOW THE RULES.”	“Follow the rules” ~ Until you're ready to rewrite them.

Traditional education often overlooks deeper understanding, meaningful application and the ability to navigate complexity. At The Quantum School, we equip learners not just to follow the world, but to engage with it, shape it and lead with purpose.

# Not a system.

# A Shift. ←

A pedagogy that moves with each child's potential.

Here, learning is discovery. Educators guide, mentors bring context, and professionals add real-world relevance to every subject.

Imagine;

- A physics concept taught by someone immersed in physics every day.
- A French lesson led by a native speaker.
- A business principle taught by an entrepreneur.

This turns chapters into context and concepts into clarity. Children don't just learn they understand, apply and grow.

A new pedagogy calls for a new kind of learner. At The Quantum School, every child becomes a Quant: curious, capable and ready to think with depth and direction.

The QUANT Framework of Learning:

- Q Question more
- U Understand deeper
- A Apply wider
- N Navigate the unknown
- T Transform insight into action

This framework runs through our national and international curricula, helping children learn through mastery, not memorisation. Even competitive exams become intuitive when their foundations are strong.

# Learning Pathways

Early Years →

Primary School →

High School

## Early Years (Pre-Primary) The Beginning of Exploration

In the earliest stage, learning is guided by wonder. Children engage in hands-on experiences that strengthen motor skills, communication, social interaction and emotional balance.

- Play-based learning
- Foundational numeracy and literacy
- Classroom routines that instill care, sharing and expression
- Building comfort, confidence and curiosity

This is where children learn to trust the world and trust their voice within.

## Primary School (Grades 1–5) Foundations with Heart and Rigour

At The Quantum School, we offer CBSE, Cambridge and IB curricula\* pathways for the Primary Years.

Through concept-based learning, reading, projects and collaboration, children strengthen their academics while developing empathy, teamwork and self-expression.

Experiences include:

- Concept-based learning
- Reading & early writing
- Inquiry-led projects
- Emotional intelligence & collaboration

## High School (Grades 6–12) The Q-Sphere Model

A three-layered system that shapes depth, application and future readiness.

**CORE:** Subject mastery through either CBSE, Cambridge or IB curricula\* pathways is built on clarity, deep understanding and inquiry-led learning.

**ADVANCE:** Learners prepare for SAT, IIT-JEE, NEET, CLAT, CA Foundation, Olympiads and other aptitude-based exams through applied reasoning, expert mentorship and foundational training integrated with academics.

**FUTURE:** The Quantum School Future Program AI, robotics, entrepreneurship, sustainability, research and internships help students explore emerging fields confidently.

# Life at The Quantum School

## Academic Programme

A structured timetable built on the chosen curriculum, delivered in well-equipped classrooms, labs, and digital learning spaces.

## Library and Creative Zones

State-of-the-art library, digital resources, and creative labs for art, writing, and reflection.

## Experiential Learning

Science, Math, ICT, and Robotics labs for hands-on learning.

Outdoor learning, projects, and practical tasks strengthen real-world understanding.

## Safety and Security

Comprehensive CCTV monitoring, restricted-access systems, and dedicated security staff create a safe, secure environment for every learner.

## Clubs & Co-Curriculars

Weekly clubs in technology, arts, culture, public speaking, and leadership.

## Sports and Physical Fitness

Daily sports include football, basketball, volleyball, athletics, and indoor games.

Access to state-of-the-art courts, turf grounds, and fitness areas.

## Emotional and Mental Well-being

Full-time counsellor support, mentorship sessions, yoga, and mindfulness routines.

## Day School Transportation

Air-conditioned buses with GPS tracking and trained female support staff for student safety.

# Residential Life at The Quantum School

## Hostel Rooms

4-sharing, fully furnished rooms with individual beds, storage, study tables, and attached washrooms.

## Weekend Activities

Sports tournaments, movie nights, creative workshops, competitions, and supervised outings.

## Daily Itinerary (Morning-Night)

- 6:00 AM – Wake-up
- 6:30 AM – Morning exercise/fitness
- 7:00 AM – Bath and room check
- 7:30 AM – Breakfast
- 8:15 AM – 3:30 PM – Academic schedule
- 4:00 PM – Snacks
- 4:30 PM – 6:00 PM – Sports/Activities
- 6:30 PM – 8:00 PM – Supervised prep/study hours
- 8:00 PM – Dinner
- 9:00 PM – Leisure time/relaxation
- 9:45 PM – Lights out (varying by age group)

## Dining and Nutrition

Weekly rotating menu with balanced vegetarian/non-vegetarian meals including rice, chapati, dal, vegetables, egg/chicken curries, salads, and fruit.

Weekend menu includes dosa, pasta, sandwiches, and special treats.

## Safety Measures

24/7 wardens, CCTV surveillance and campus access control ensure a safe and well-monitored environment at all times. An on-campus infirmary, supported by a trained nurse and an on-call doctor, provides prompt medical care whenever required.

## Personality Development

Leadership duties, community tasks, and life-skills sessions build responsibility and independence.

# Our admissions process is clear, welcoming and centered around your child

## 1. Get in touch

Visit the school or contact admission team

## 2. Experience the Campus

Take a guided tour and meet our academic team

## 3. Application Submission

Collect and submit the application form along with the necessary document

## 4. Interaction Session

A non - evaluative relaxed conversation to understand your child better

## 5. Offer of Admission

Based on Interaction and Documentation

## 6. Joining The Quantum School Community

Finalise enrolment and begin an exciting learning journey

## Ready to step into the Future of Learning?

At The Quantum School, every choice from our pedagogy to our mentors to our environments is focused with one purpose: to help children grow with clarity, confidence and a sense of who they are becoming. We offer a learning experience that is forward-facing yet grounded, nurturing both capability and character in equal measure.

We invite you to explore the possibilities ahead. Our admissions team is here to guide you, answer your questions and help you discover how The Quantum School can become the right home for your child's growth.
