Diversity, Equity & Inclusion Statement

You are welcome to Lorenzo's House for all of who you are. Bring your personal experience, your perspectives, and your background. We are all learners at Lorenzo's House and believe that our differences will empower and revolutionize the way we think about, and experience dementia as a society. Our platform radiates light for our unseen, misunderstood and under-resourced group: families walking with, or have walked with any form of younger-onset dementia. The more voices we have represented and amplified through our mission, the more we build an alliance, cure isolation, and create dementia justice.
