

Pathway to Equity Your Future with Ausdocs Group.

WHY EQUITY MATTERS

At Ausdocs Group, we believe doctors should have more than just a consulting room – they should also have the opportunity to invest in their future. That’s why we’ve created a **Pathway to Equity** program allowing GPs to progress from working within the network to becoming a **shareholder and practice owner**.

HOW IT WORKS

1. **Join our Ausdocs Network** – start working as a GP at one of our practices.
2. **Explore Equity Pathways** – tailor your journey to suit your goals.
3. **Become a Shareholder** – enjoy the rewards of being both a GP and an owner.

Because GPs should have the opportunity to own the practices they help build!

“
Having the chance to invest in my own future through the shareholder program has helped me appreciate the work that goes into making a practice run effectively for all - Doctors, Staff and Patients.

—Dr Naveen Thalluri

Our Growing Network

Ausdocs Group has grown substantially since its first practice acquisition in 2018.

Today, we're a network of **medical practices across Queensland**, with a growth pipeline into southern states over the coming 12 months.

Our model ensures every practice retains its unique community identity while benefiting from the strength, stability, and opportunities that come with being part of a larger group.

At the heart of this growth is our commitment to **empowering GPs with real equity pathways** – giving you the chance to share in the success you help create.

THE AUSDOCS ADVANTAGE

- **Doctor-Owned:** We're independently founded and remain owned by doctors.
- **Clinically guided, professionally managed:** We have a partnership in which doctors shape the vision, while expert operators make it happen.
- **Community First:** We respect the individuality, culture and diversity of every practice. Clinics stay local and part of their communities.
- **Ownership Pathways:** We believe the medical profession should remain owned by doctors and offer GPs a shared pathway to equity in practices.

Take the next step in your career.

With Ausdocs Group, it's not just about where you work today – it's about building your future.

AUSDOCS GROUP
Our practices. Your future.
