

# A Doctor-Owned Network Shaping the Future of General Practice.

## THE AUSDOCS ADVANTAGE

- ▶ **Doctor-Owned:** We're independently founded and remain owned by doctors.
- ▶ **Community First:** We respect the individuality, culture and diversity of every practice. Clinics stay local and part of their communities.
- ▶ **Ownership Pathways:** We believe the medical profession should remain owned by doctors and offer GPs a shared pathway to equity in practices.
- ▶ **Integrity Always:** We say what we mean and do what we say – with transparency, respect, and accountability.

What makes us unique is simple—we're owned and managed by doctors. The needs of GPs and patients remains at the heart of every decision we make.
