

ELLEPHANT

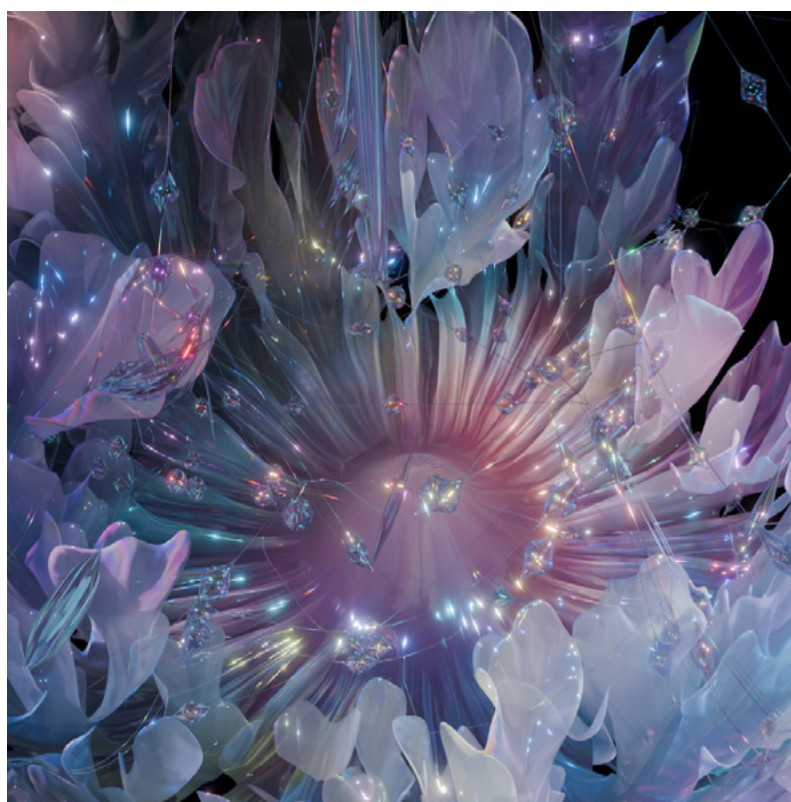

Enter the Immersive Worlds of Sabrina Ratté

GALLERY
May 29 – June 20

OPENING
May 29, 7 – 9 pm

PERFORMANCE
May 30, 9 pm

PEACE PARK
May 29 – June 5

Sabrina Ratté's exhibition *Inframondes* will take over ELLEPHANT gallery and Peace Park starting May 29, 2026.

In the gallery, three works will be presented: two new videos, *Survey of Waves* (2026) and *Archipels* (2025), as well as the interactive installation *Pharmakon* (2025), activated by the viewer turning the pages of a book of plants where remedy and poison are indistinguishable. *Pharmakon* returns to Montreal following its most recent presentations at Festival Noûs, the Bibliothèque nationale de France in Paris, and as part of the exhibition *Entwined* at Contemporary Calgary. The artist will be present at ELLEPHANT on May 29 from 7–9 pm.

In collaboration with OFFTA, four images from *Survey of Waves* will also be presented on large-scale light boxes in Peace Park. On May 30 at 9 pm, Sabrina Ratté will present a live performance in the park in front of ELLEPHANT, accompanied by her longtime musical collaborator Roger Tellier-Craig. www.ellephant.org

ABOUT THE ARTIST

Montreal artist Sabrina Ratté's practice explores the perceptual and material potentials of digital media through 3D animation, analog video, print, and installation. Drawing from technology, philosophical thought, and speculative ecology, her work maps liminal zones where relationships between material and virtual worlds are reconfigured. Her works evoke possible futures, both sublime and unsettling, in which the organic, the synthetic, and the spectral coexist within a single continuum. www.sabrinaratte.com
