CONTEST MANAGEMENT OVERVIEW

Contest management software is used by companies to sponsor or develop a contest platform. It enables them to conduct innovation competitions that help to create new services or products. In addition, by conducting interesting and rewarding contests, organizations can connect more closely with their target consumers, especially young adults and youth. This demographic is typically motivated and creative in establishing relationships with their preferred brands.

Another benefit of contest management software is they help your brands to gain exposure to a wide audience. Participants raise awareness about your enterprise and brand by talking about the contest with their colleagues, friends, and family. Thus, as more people talk about your company's competitions and products, you can engage with them in a relevant manner to exponentially boost your reach into the target segment.

Customer Success Report
Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings. The overall Customer Success ranking is a weighted average based on 3 parts:

Content Score is affected by:

1. Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
2. Customer reference rating score
3. Year-over-year change in amount of customer references on FeaturedCustomers platform
4. Total # of profile views on FeaturedCustomers platform
5. Total # of customer reference views on FeaturedCustomers platform

Market Presence Score is affected by:

1. Social media followers including LinkedIn, Twitter, & Facebook
2. Vendor momentum based on web traffic and search trends
3. Organic SEO key term rankings
4. Company presence including # of press mentions

Company Score is affected by:

1. Total # of employees (based on social media and public resources)
2. Year-over-year change in # of employees over past 12 months
3. Glassdoor ranking
4. Venture capital raised

Customer Success Report Award Levels

Market Leader

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

Top Performer

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

Rising Star

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

"Submittable was the perfect contest platform. From accepting videos and business plans, to communicating with students and teachers, to managing judges and conducting a public vote, the software was easy to learn and the staff were wonderfully supportive and always available."

Youth Entrepreneurs

"Submittable really helped streamline our awards. We're not hunting down as much information and we get entry fees right away. It's great for all user levels and I'm excited to see what else we could do with it in the future."

Dana J. Long
Marketing & Communications Manager, National Council of Structural Engineers Associations (NCSEA)

"It's been so helpful having a centralized platform where I can manage all of our award nominations. Submittable makes it easy for us to collect, analyze, and make use of data and it's easy for our end users to access and utilize."

Ingrid M. Robinson
President, HMSDC

"The Submittable application itself is really great for conducting a contest, judging it, sorting submissions, and bulk emailing submitters. Plus, we're probably only using 10% of what Submittable is capable of."
