HOW THE GAME WORKS

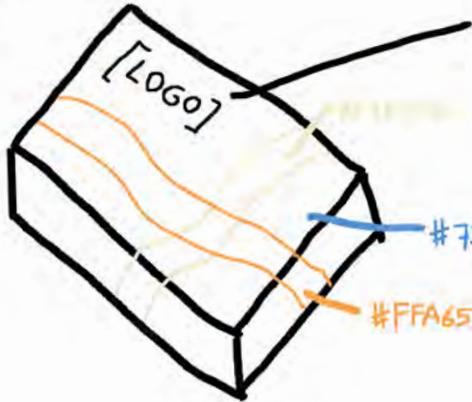

This board game starts with everyone making a scribble. A dice roll determines how long the next player will have to finish the drawing. Players are given a theme. After each round the loser is chosen, person with the worst drawing, as is dared to pick up a card from the punishment deck. The game continues until the player is the last one standing.

RULES:

Game Overview

This game is for 6 players and combines creativity, teamwork, and a bit of competition. Players will draw based on each other's scribbles and compete to create the best artwork based on chosen themes.

Game Setup

- Open the game box and place the game pad in the center of the players. Ensure the timer (or phone), theme cards, and punishment cards are easily accessible.
- Each player takes a drawing pad and writes their name in the corner.

Game Play

1. Each player has 10 seconds to make a random scribble on their drawing pad.
2. After the time is up, players pass their drawing pads two times to the right.
3. Draw a theme card from the deck and read it aloud. This will be the focus of the drawing round.
4. Roll the dice, it will determine the amount of time you have to complete the drawings.
5. Players now have a set amount of time to finish the drawing using the scribble from the previous person.
6. Once time is up, everyone reveals their drawings.
7. All players vote for the worst drawing (players cannot vote for their own).
8. The player with the most votes must draw a punishment card and follow the instructions on it. That player is out for the next round.

Rounds

The game continues with new themes and rounds until only one player remains, crowned the winner for having the best drawings.

End of Game

The last player standing is the winner!

Additional Notes

Feel free to adjust the time limits or add house rules to enhance gameplay.
