

# Joanna Brittain

## Student Support Coordinator

Some children learn best through an adapted curriculum. This could be for many reasons, such as showing gifted potential, needing support in learning languages, or needing extra creative teaching methods for literacy and numeracy. I believe every child should enjoy school and value their own progress, regardless of their challenges.

That's also why I love working at Lakeside School. The students are free to be themselves, enabled by our staff's experience and high professionalism. ”
