Elfriede Folta-Okyere

Primary Teacher
Grade 3 & 4

“In an exhibition of the artist Olafur Eliasson, I discovered the "Little Sun" solar lamp. I saw this object as a symbol of the principle of education, which the following quote puts perfectly: "Education is not the filling of a bucket, but the lighting of a fire" (W.B. Blake). Igniting the spark of curiosity for cooperative skill and knowledge acquisition motivates me in the classroom every day.

Different cultures and multilingualism of families, students, and the team are what I value most in my work as a teacher at Lakeside School.”

Professional Experience

- Primary Teacher, German Swiss International School Accra, Ghana
