Nicola Gomes

Kindergarten Teacher

"After completing training and working in the commercial sector, two years ago my path led me into providing care for kindergarten and primary children including those with special needs such as ADHD/ADS/ASS as well as those needing to improve their German language skills. The additional training as a class assistant in "Heilpädagogk" or curative education inspired me a lot. As a mother and experienced caregiver, it is important to me to support each child with heart, patience and individual support. I love my meaningful work and enjoy incorporating in my two creative passions - painting and drawing – into my roles. At Lakeside School, I look forward to an inspiring and appreciative environment."
