# Anna Greenman

## Kindergarten Teacher

*“I have had the privilege of working with children since 2005 and early childhood is my passion. I believe early experiences set the tone, and build the foundations needed, for the lifelong journey of learning. Through the power of the positive I endeavour to cultivate a happy, stimulating and fun play-based learning environment. I am driven by the philosophy of a holistic education, valuing all aspects of the curriculum and encouraging every child to be and do their best.”*
