Samuel Schöpke

Primary Teacher
Physical Education

“Sport is essential for a person’s health. It is important to offer the students a wide range of sports activities and to help them enjoy moving around. At the same time, the sports lessons should support the students’ development in a performanceoriented yet supportive way. With my polysportive abilities and experience in professional sports, I design physical education lessons to suit each and every student.”

Professional Experience

- Upper School Teacher – Physical Education & Geography, Gymnasium Burgdorf und Solothurn, Switzerland
- Primary Teacher – Physical Education, Primarschule Hausen (AG), Switzerland
