Brenda Reimann

Primary Teacher
Grade 3 & 4

"Learning should always be engaging and fun for students. Learning goals should be clear and attainable for all learning levels. I value open communication between home and school and strive to give each student individual attention, as well as specific, targeted feedback about their academic and social competencies.
I enjoy sharing my passion for writing with my students and am delighted to watch their literacy skills grow and develop.
Teaching in a bilingual setting is both challenging and rewarding, and I love to spend my days in such a diverse environment with children from various backgrounds and cultures."
