Edith Richard

Hot Lunch Kindergarten

“I am married, have two grown children, and four grandchildren. I have always wanted to pursue my passion for children professionally. That is why I am very happy to support the Kindergarten Team in providing lunchtime supervision.

I am fascinated by the individual strengths and weaknesses of each child. I am particularly touched by how they grow together and learn from each other despite their different backgrounds and languages. It fulfils me to accompany them, to comfort them, to laugh with them, and to support them.

Working with children enriches me every day through their spontaneous joy, their curiosity, and their ability to view the world with wonder. They inspire me to develop my creativity and to see life from new, honest perspectives.
