Mara Eisele

Pre-Kindergarten Teacher

"I believe in learning through play and cultivating the natural inclination for children to learn in a fun way. I am passionate about having a variety of activity areas in the classroom where the children can explore on their own, be allowed to make mistakes, work with their hands, and actively learn while having fun. I enjoy working with such a talented team of co-educators from diverse backgrounds and witnessing how well bilingualism works in a school setting."
