Welcome to Roseland Park & Crematorium

Set in eight acres of countryside, our crematorium offers a quiet and rural setting for the people of Shirebrook and the surrounding areas.

Our Garden of Remembrance has been designed to provide a peaceful and reflective space for visitors to remember their loved ones. The remembrance garden is located away from the main crematorium and offers a tranquil environment to reflect on the life of your loved one and create lasting memories.

WHERE REMEMBRANCE RESTS WITH NATURE

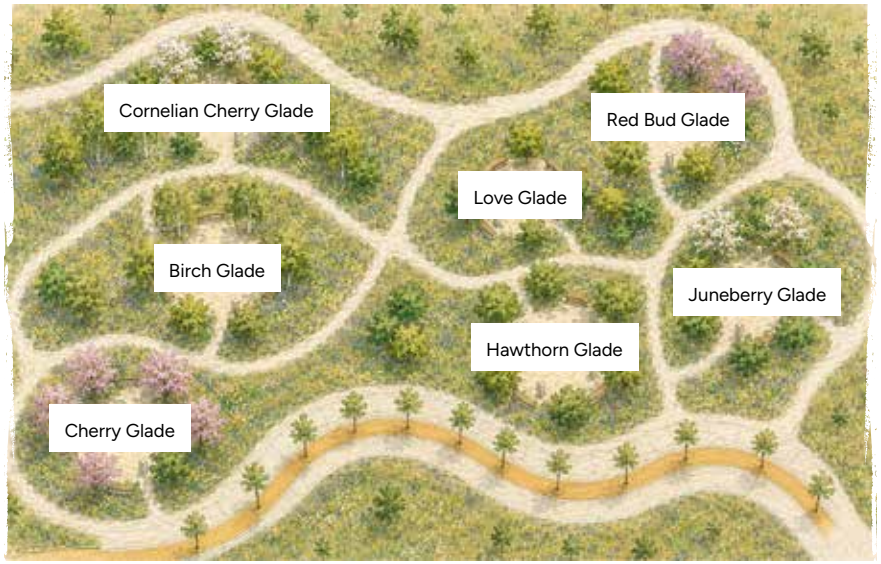

Our Private Memorial Gardens

The garden is landscaped to enhance its natural beauty and tranquillity, making it a place of comfort during difficult times.

Visitors can arrange to scatter ashes by appointment only as we must register the location, or schedule an interment of ashes with our dedicated staff who will be able to talk through all our options to create a meaningful, lasting tribute for your loved one.

Our memorial glades are maintained to a high standard and feature sensitively planted hedging for added privacy whilst being set in acres of our meadow flower parkland.

Choose a private garden from one of our seven memorial glades.

Wooden Bench Options

Choosing a wooden bench with a plaque is a thoughtful and enduring way to honour a loved one.

Wooden benches offer a natural, warm look that blends with outdoor settings, while plaques provide a more permanent and detailed tribute.

The combination of a wooden bench and a plaque creates a lasting memorial that serves both emotional and practical needs.

CHOOSE FROM 2 OPTIONS

1. Individual family bench with plaque
2. Individual plaque options placed on a shared bench

Bench Plaques

A premium cast bronze rectangle memorial plaque with a satin finish, designed to create a lasting and dignified tribute.

This plaque features raised lettering, a dark recessed background, and a brushed bronze border for a refined, traditional appearance. The optional floral detailing adds a decorative memorial touch while maintaining a clean, elegant layout suitable for a commemorative setting.

Our Coppices

Constructed from durable corten steel, a material that has a natural rustic appearance and is designed to weather beautifully from bright orange/reddish hues to deep amber and dark brown earthy tones. Perfect in a natural setting where granite may look out of place, for example in a natural row of trees or along a hedgerow.

The coppices serve as multi-functional memorials, and with space for one or two caskets inside the coppice they are a unique way of interring urns. On the top of the coppice is a memorial plaque with a slate plaque and clear topper.
