

FECT Box

The sustainable flower crate

The FECT box is specifically designed for transport on a Danish trolley. Its ergonomic design ensures easy handling, while its dimensions make it perfectly suited for automated logistics processes. After its long service life, it is fully recycled into a new box - making it a prime example of closed-loop logistics and a sustainable alternative to single-use cardboard packaging.

Recycled & recyclable

Made from 100% recycled plastic and recycled at the end of its life.

Easy handling

Easy to set up and fold, ergonomic design and fits perfectly in automated processes.

Flexible ventilation opening

To ensure optimal control of humidity and the 'cool chain', for longer vase display.

Characteristics

Material	PP
----------	----

Temperature (C°)	-10C to +50C
------------------	--------------

Dimensions

External (L x W x H)	1248 x 539 x 216.3
----------------------	--------------------

Folded (L x W x H)	1248 x 539 x 45
--------------------	-----------------

Weight (kg)	4,8
-------------	-----

Loading capacity

Dynamic load capacity (kg)	25
----------------------------	----

Loading quantities

Units per trailer	440
-------------------	-----

Units per trailer (folded)	2200
