

# Magnum Optimum

## The foldable dry bulk container

This heavy-duty Folding Large Container (FLC) is made from food-grade virgin HDPE and features smooth sidewalls- ideal for transporting dry bulk goods, both food and non-food. Its foldable euro size and industrial size designs save valuable space in the warehouse and during return transport, helping to reduce both costs and CO<sub>2</sub> emissions. Two sturdy runners provide strength and stability throughout the supply chain.

### Foldable

To save space in return logistics

### Easy Handling

The container's long-side drop door ensures safe, easy folding and convenient access for effortless picking.

### Sustainable

They can be reused for years, get recycled at the end of their service life and are then remanufactured into new containers.
