

# LOOPOS Reusable Display Tray

## The sustainable display

The LOOPOS Reusable Display is a sustainable POS solution made up of up to six individual display trays. Unlike single-use cardboard displays, it can be reused 100 to 150 times. This results in an 85% reduction in cardboard use and cuts CO<sub>2</sub> emissions from in-store promotions by 65%.

### 100% recyclable

Made of 100% recyclable plastic.

### Easy handling

Due to the simple one-touch system, the display is set up in no time.

### Modular

Customize the height of the Display and fold the Trays for transport and storage.

## Characteristics

### Material

HDPE

### Dimensions

External (L x W x H)	596 x 396 x 294
----------------------	-----------------

Internal (L x W x H)	520 x 370 x 294
----------------------	-----------------

Folded (L x W x H)	596 x 396 x 56
--------------------	----------------

Weight (kg)	2,1
-------------	-----

### Loading capacity

Dynamic load capacity per tray (kg)	38
-------------------------------------	----

Max stacking weight (kg)	200
--------------------------	-----

### Loading quantities

Units per euro pallet	172
-----------------------	-----
