

# M3 Metercube Heated

## The UN Approved heated hazardous container

The M3 Metercube Heated is designed for applications where heated storage is essential. The container features an integrated heating system that keeps products at the desired temperature – ideal for liquids and semi-solid products that are otherwise difficult to process.

### Hazardous products

Specifically designed for the safe storage and handling of hazardous liquids and UN packaging groups, ensuring compliance with the strictest safety standards.

### A sustainable choice

The durable stainless steel construction lasts for years, reduces waste and offers a reliable, reusable alternative to disposable packaging.

### With cleaning service

Thanks to our professional cleaning service, every container remains in optimal hygienic condition, fully ready for reuse even in the most demanding environments.

### Characteristics

Lid	Yes
Material	304 Stainless steel
Foodgrade	Yes
Temperature (C°)	-30C to +85C
Packaging group	2 & 3
Working pressure	0,2 bar

### Dimensions

External (L x W x H)	1150 x 1150 x 1140
Weight (kg)	180
Volume (l)	1000

### Loading capacity

Static load capacity (kg)	10000
Dynamic load capacity (kg)	2000

### Loading quantities

Stack (units)	4
Units per trailer	52
Units per trailer (empty)	52
