

D2 0806

The plastic half pallet

The D2 half pallet is a lightweight, reusable alternative to the Düsseldorf pallet - durable, easy to handle, and ideal for retail and food logistics. Its standardised design features a 7 mm outer rim, ribbed deck surface, and patented Lego structure for secure stacking. This dimensionally stable 4-way entry pallet ensures reliable performance throughout the supply chain.

Sustainable

Ultra-durable pallets can be reused for years and outlast wood alternatives.

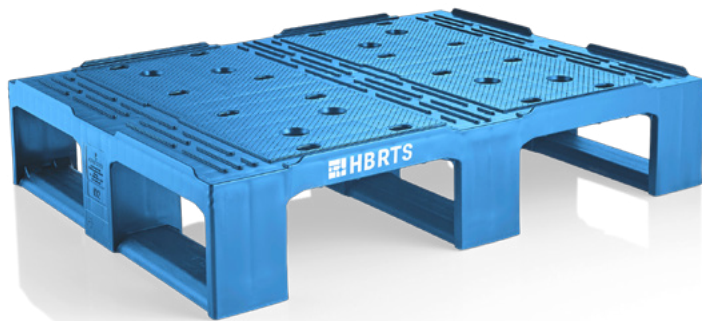

Easy handling

Lightweight design for effortless handling, with a patented 'Lego structure' that ensures secure stacking of empty pallets.

Stability and strength

High runner stability and bending strength, ideal for roller and chain conveyors and automated warehouse technology.

Characteristics

Runners	3
Material	PP
Temperature (C°)	-18C to +40C

Dimensions

External (L x W x H)	800 x 600 x 160
Weight (kg)	8,5

Loading capacity

Static load capacity (kg)	2000
Dynamic load capacity (kg)	500

Loading quantities

Units per trailer	66
Units per trailer (stacked)	990
