

Foldable Crates

The foldable food safe crate

These collapsible crates are specifically designed for the transport and storage of fresh food products and comply with all current standards in the food sector. Thanks to the unique smooth inner walls, product damage during transport is minimized.

100% recyclable

Made of virgin, durable, wear-resistant, 100% recyclable plastic.

Foldable

Easily collapsible, reducing volume by as much as 84%.

Food safe

Made from food-grade material and designed with perforated walls and base for optimal ventilation – keeping fresh products in ideal condition longer.

Characteristics

Material	PP-C
Temperature (C°)	-20C to +40C

Dimensions
